

Wire Wall Letter

Note: For safe mounting is essential to use the proper hardware for your wall type. The hardware included is meant for drywall or wood stud mounting only. If walls are concrete, brick or plastic, please consult your local hardware store for assistance. Mount to wood studs whenever possible.

PARTS INCLUDED:

- (1) Wall Letter
- (2) Screws

Tools Required for Mounting (Not included):

- Phillips Head Screwdriver
- Level
- Pencil

MOUNTING INSTRUCTIONS:

1. Hold the product at the desired location on the wall (use level to ensure the product is level). Using a pencil, mark on wall through mounting loops located near the top of the letter. The marks on the wall are the insertion points for your mounting hardware.
2. Place a Phillips screwdriver into recess of a screws and position over one of your insertion point marks on the wall. Insert the screw into the wall (turning it clockwise) until there is approximately $\frac{1}{2}$ " between the wall and the screw's head. Repeat with the other screw and insertion point mark.
3. Mount the product by fitting the mounting loops over the screw heads and then let the product rest on the screws. You may need to tighten or loosen the screws to ensure that the product fits snugly against the wall.

CARE INSTRUCTIONS:

- Dust with soft, dry cloth.
