

Spot Light

Parts Included:

- (1) Base
- (1) Lower tube
- (1) Middle tube
- (1) Upper tube (D) with 3 attachment connectors (E)
- (3) Arms (F)
- (3) Sockets (G)
- (6) Headless Screws (H)
- (1) Allen Wrench (I)

Assembly Instructions:

1. The wire is pre-threaded through each tube. Gently pull the wire through the Middle tube (C) from the Upper tube (D) so there is no slack in the wire when connecting the tubes. Screw the Middle tube onto the Upper tube by turning the Middle tube in a clockwise direction until tight.
2. Gently pull the wire through the Lower tube (B) from the Middle tube so there is no slack in the wire when connecting the tubes. Screw the Lower tube onto the Middle tube by turning the Lower tube in a clockwise direction until tight.
3. Gently pull the wire through the Base (A) from the Lower tube. Screw the Base onto the Lower tube by turning the Base in a clockwise direction until tight.
4. Remove the headless screws from the attachment connectors. Once all screws have been removed, insert the Arm (F) into the attachment connector (E), and re-insert the headless screw (H) into the connector. Tighten using the Allen wrench (I) as shown in illustration.
5. Repeat this step for other two arms.
6. Insert 3 bulbs-MAX (TYPE A) STANDARD 40 WATT (not included) or a 13 WATT compact fluorescent bulb (included for California customers only) into 3 sockets (G).
7. Plug fixture into the proper outlet and test.

Care Instructions:

Wipe clean using a soft, dry cloth or static duster.

Always avoid the use of all chemicals and abrasive cleaners as they may damage the lamp's finish.

Thank you for your purchase.
