NOTICE:

To prevent injury and property damage from unexpected tipping of furniture, we highly recommend installation of the anti-tip kit included with this product.

Attaching mirror to wall with anti-tip kit.

1. Determine where the mirror is to be placed and mark location on the wall for the mounting bracket screw holes. They should be placed approximately 2" below the "D" ring on the back of the mirror frame.
2. Attach the mounting bracket vertically to the wall by inserting the Long screws provided through the holes in the bracket and tightening securely using screwdriver.
3. Place mirror so the "D"-ring on the back edge is in line with the bracket on the wall.
4. Lace the nylon strap down through the bracket and "D"-ring. Slide the thin end of the strap through the receiving end of the nylon strap. Pull to tighten mirror snug against wall.

CARE INSTRUCTIONS

Hardware may loosen overtime. Periodically check that all connections are tight.

Wipe with a soft, dry cloth. To protect finish, avoid the use of chemicals and household cleaners.
