Retarget Lead Gen Form opens or submissions

If retargeting by Lead Gen Forms, select the right action

To generate new leads, retarget those who opened a Lead Gen Form and exclude those who submitted. To nurture existing leads, retarget those who submitted a Lead Gen Form.

Best Practices:

Choose at least one active campaign

Retargeting based on previous campaigns may cause your audience size to decrease over time, as there will be fewer recent engagements with your ads.

Define the right lookback window

We recommend A/B testing different lookback windows to understand which is the most effective at reaching an in-market audience.

Check on your audience

After you build it, allow 48 hours for your audience to populate.

Audiences will continue to build on a daily basis and will grow as engagement with your ads grows.
