

EXPRESSION OF INTEREST

Introduction

Race to Resilience (R2R) (<https://racetozero.unfccc.int/join-the-race-to-resilience/>) is a global campaign - the sibling to Race to Zero (RtZ) - catalysing a step-change in global ambition for climate resilience, putting people and nature first in pursuit of a resilient world where we do not just survive climate shocks and stresses but thrive in spite of them.

R2R is led by the High-Level Climate Champions for Climate Action and was launched at the Climate Adaptation Summit on 25 January 2021 by Alok Sharma, COP26 President-designate, after an opening statement from Ban Ki-moon, 8th Secretary-General of the United Nations.

Goals:

- **By 2030, to catalyse action by non-state actors that builds the resilience of 4 billion people from groups and communities who are vulnerable to climate risks.**
- **By 2050, to live in a world where all communities thrive in the face of the multiple risks and uncertainty posed by climate change.**

Non-state actor-led regional, national or global initiatives (alliances, networks, partnerships, associations, consortia, platforms etc.) are invited to register their interest in joining the Race to Resilience by completing the form below.

Every Expression of Interest (EoI) will be reviewed by three members of the R2R Expert Review Group (ERG) (<https://racetozero.unfccc.int/governance/>). The ERG provides technical advice on the campaign. This includes advising the High-Level Climate Champions about which partner initiatives should be included, or not, in the R2R Campaign for the Champions' final decision. On the next page, you will find the eligibility criteria.

This is the current list of R2R Partners: <https://racetozero.unfccc.int/first-round-of-initiatives-join-the-race-to-resilience/>.

PLEASE NOTE THAT AN ALTERNATIVE TO SUBMITTING A NEW EOI IS TO JOIN ONE OF THESE R2R PARTNERS - SO PLEASE REVIEW THE LIST TO SEE IF THIS IS AN OPTION FOR YOU.

This EoI has four sections:

- **Section I: general information**
- **Section II: specific information related to R2R**
- **Section III: general eligibility criteria**

- **Section IV: eligibility criteria based on the Metrics Framework**

Please complete your submission in English.

If you have any questions, please email: resilience@climatechampions.team

EXPRESSION OF INTEREST

Eligibility criteria

There are two types of eligibility criteria: inclusion/exclusion criteria and decision criteria.

INCLUSION/EXCLUSION CRITERIA are criteria that an initiative must meet or agree to if it wants to be part of the campaign. These criteria usually lead to closed questions, which means that the answers are “yes” or “no”. These types of questions are the first filter that determines which initiatives will be evaluated by the ERG.

The initiatives wishing to join the campaign must:

- **Share the goals of the R2R: to deliver a step-change in global ambition for climate resilience, putting people and nature first towards a 4bn people goal, by taking transformative actions at scale that are measurable and/or by promoting enabling conditions and systemic transformations driving resilience.**
- **Be led by non-state actors.**
- **Be open to new members.**
- **Not be a project or programme led by an organisation.**
- **Agree on sharing knowledge and collaborate with other initiatives and partners to drive ambition.**
- **4Ps: commit to progress in the process to the race: Pledge, Plan, Proceed and Publish.**

DECISION CRITERIA refer to criteria from which the ERG members have to make their assessment and decide to recommend or not an initiative to become a partner. The initiative has to be willing to commit to this matter and justify it.

The initiatives wishing to join the campaign must:

- **Resilience: Be committed to increasing resilience.**
- **Theory of change: Deliver a step-change in global ambition for climate resilience.**
- **Inclusivity: Be committed to delivering inclusive and equitable actions to**

people from vulnerable and marginalised groups and communities to climate risks.

- **Sustainability:** Not take actions which harm nature and ecosystems.
- **Impact (or have the potential to impact) at scale (over 100.000 people).**
- **Governance:** Have the operational capacity and an active host that can collect and provide R2R with the data required for quantitative and/or qualitative metrics purposes.
- **Pledge:**
 - Commit to setting a target for resilience action for the partner initiative and its members (which impacts or systemic shifts does your initiative pledge to achieve?). The initiative has between 3 and 6 months after joining the campaign to refine its Pledge(s) and ask its members to agree on it/them. If the initiative does not have a numeric target, it has to be willing to present a numeric pledge and present a plan on how to create that pledge up to 3 months from the moment you are admitted in the campaign.
 - Initiatives also have to be willing to translate the pledges into numbers of people or hectares of land with increased resilience (using the Metrics Framework we will provide).
- **Plan:** Commit to presenting a clear and evidence-based plan to take action towards its committed pledge(s) in the next 3-6 months after presenting the pledge (how -through which actions- do you or your members plan to achieve it?).
- **Process:** Commit to taking effective and immediate action towards achieving its pledge(s).
- **Publish:** Commit to providing the results and outcomes (reporting) that your actions are achieving and the evidence to back them (which validated outcomes have these actions achieved so far?). To raise ambitions on targets and make new commitments and report on its targets at COP and beyond.

EXPRESSION OF INTEREST

Eligibility criteria (continued)

Here are some definitions that may help your submission:

- **Partner:** is an initiative that is part of the R2R campaign.
- **Members:** refers to organizations or individuals that are part of the Partner Initiative. They became a member after a membership process.
- **Host:** refers to the organization or committee/board that is at the head of a partner initiative.
- **Numeric pledge:** a number in terms of individuals, companies, countries, regions OR natural systems.

- **Translate into the number of people: how a numeric pledge that is not focused on individuals is translated into individuals.**

EXPRESSION OF INTEREST

SECTION I: General information about the initiative

These questions refer to general information about the initiative. It is a requirement to complete all of the questions.

EXPRESSION OF INTEREST

General information

* 1. Initiative name

* 2. URL of initiative

* 3. Please describe the initiative, its main goals and objectives (max 2000 characters)

* 4. Who hosts/provides a Secretariat for the initiative?

* 5. Name of contact

* 6. Email address (of the name of contact)

* 7. Year that the initiative started

* 8. Type of initiative (tick all that apply)

- Alliance
- Association
- Coalition
- Consortium
- Network
- Partnership
- Working Group
- Individual organization
- Other (please specify)

* 9. How many members are affiliated to your initiative?

Please, indicate if they are individuals or organizations

* 10. Type of members (tick all that apply)

- Private sector
- Academia/Universities
- Civil society organizations
- Cities
- National governments
- Sub-national governments
- Other (please specify)

* 11. Targeted geography (tick all that apply)

- Local (sub-national Admin 1)
- National
- Regional (supra-national)
- Predominantly Global South
- Predominantly Global North
- Global
- Other (please specify)

EXPRESSION OF INTEREST

12. If national or regional, what countries does the initiative cover?

* 13. Targeted regions (tick all that apply) (based on the UN regional groups of Member States: <https://www.un.org/dgacm/en/content/regional-groups>)

- Global
- African States
- Asia-Pacific States
- Eastern European States
- Latin American and Caribbean States
- Western European and other States (including Australia, New Zealand and United States of America)
- Other (please specify)

EXPRESSION OF INTEREST

SECTION II: Specific information related to R2R

Seeks to obtain specific information about the initiative related to R2R. All to complete.

EXPRESSION OF INTEREST

Impact area

* 14. R2R impact area (tick all that apply)

- Urban
- Rural
- Coastal

EXPRESSION OF INTEREST

Impact area

(1) Under the leadership of the High-Level Climate Champions, the Marrakech Partnership for Global Climate Action (MPGCA), launched in 2016 (COP22), supports the implementation of the Paris Agreement by enabling collaboration between governments and non-Party stakeholders (i.e. non-State actors).

(2) There are nine Marrakech Pathways, two are cross-cutting, the other seven are sectoral.

(3) The Climate Resilience Pathway is one of the two cross-cutting pathways (with

Finance). It is structured around delivering the overall vision of the Race to Resilience campaign around "Resilience impact areas" that are aligned with the other eight Pathways. For more information: <https://unfccc/resilience-climate-action-pathway>

The initiative must address at least one of the Climate Resilient Pathways.

* 15. What are the Marrakech Partnership - Climate Resilience Pathway - Resilience impact areas targeted by the initiative and its members? (tick all that apply)

- Resilient food and agriculture systems (land use)
- Resilient oceans and coastal zones
- Resilient water and natural ecosystems
- Resilient cities and human settlements
- Resilient infrastructure and services - Transport
- Resilient infrastructure and services - Energy
- Resilient infrastructure and services - Industry
- Finance - Cross-cutting actions
- Other (please specify)

* 16. **Marrakech resilience actions:**

In addition to the Marrakech resilience impact areas, the Climate Resilience Pathway developed a typology of nine resilience actions (the "Marrakech resilience actions"). The initiative must address at least one of the resilience actions

What are the Marrakech Partnership targeted by the initiative and its members? (tick all that apply)

- Climate risk vulnerability assessments, disclosure & monitoring
- Early warning systems & early action
- Preparedness, contingency plans/ emergency response
- Climate risk governance & capacity building
- Nature-based solutions to reduce risks
- Climate proofing infrastructure & services
- Risk transfer: Insurance & social protection
- Sharing knowledge & best practice on climate risk management
- Volume, quality and access of public and private finance
- Other (please specify)

EXPRESSION OF INTEREST

Climate hazards

A hazard is an event or trend that may cause damage to human life, property, infrastructure, livelihoods, service provision, natural systems and environmental resources.

* 17. What are the Climate hazard(s) targeted by the initiative and its members? (tick all that apply)

- All Hazard
- Heat stress - livelihoods (outdoor work)
- Heat stress - lives
- Heat stress - lives & livelihoods combined
- Extreme heat
- Extreme cold
- Extreme snow and ice storm
- Drought (agriculture focus)
- Drought (other)
- Water stress (urban focus)
- Water stress (other)
- Fire weather (risk of wildfires)
- Urban flooding
- Riverine flooding
- Coastal flooding and sea level rise
- Other coastal and oceanic events
- Hurricanes/cyclones
- Smoke generated by wildfires
- Extreme wind
- Other (please specify)

EXPRESSION OF INTEREST

*** 18. Race to Zero**

Is the initiative a partner or member of Race to Zero?

- Yes
- No

*** 19. GHG emissions**

Has the initiative objectives on reducing GHG emissions?

- Yes
- No

20. Additional comment

Add any additional comment to the previous questions on impact areas, strategy and actions (max 1000 characters)

EXPRESSION OF INTEREST

SECTION III: General eligibility criteria

Includes questions on general eligibility criteria. All to complete.

EXPRESSION OF INTEREST

Non-State actors

By 2030, R2R aims to catalyse action by non-State actors that builds the resilience of 4 billion people from vulnerable groups and communities to climate risks.

* 21. Is the initiative led by a non-State actor?

Yes

No

EXPRESSION OF INTEREST

Non-State actors

By 2030, R2R aims to catalyse action by non-State actors that builds the resilience of 4 billion people from vulnerable groups and communities to climate risks.

Only initiatives led by non-state actors can be part of the campaign. Alternatively, you could become a member of an initiative that is already part of the campaign. Meet our partners here (<https://racetozero.unfccc.int/meet-the-partners/>)

***if you press NEXT, you will exit the survey**

EXPRESSION OF INTEREST

Governments involved

State/national governments are Parties to the United Nations Framework Convention on Climate Change (UNFCCC). They could be involved but they cannot lead the initiative.

* 22. Are state/national governments involved?

Yes

No

EXPRESSION OF INTEREST

Governments involved

Nationally determined contributions (NDCs) are at the heart of the Paris Agreement and the achievement of its long-term goals. NDCs embody efforts by each country to reduce national emissions and adapt to the impacts of climate change. Means of implementation include finance (funding, insurance, or other), technology and capacity-building projects.

23. If State/national government are involved, in what aspect (i.e. means of implementation)? (tick all that apply)

Finance - Funding

Finance - Insurance

Finance - Other

Technology development

Technology transfer

Capacity building

Other (please specify)

EXPRESSION OF INTEREST

Increase resilience

* 24. How does the initiative increase resilience to climate change? (max 2000 characters)

EXPRESSION OF INTEREST

Reasons to be part of the R2R campaign

* 25. Why does the initiative want to be part of Race to Resilience? (max 2000 characters)

* 26. How does the initiative expect to contribute to the goal of the Race to Resilience (by 2030, to catalyse action by non-state actors that builds the resilience of 4 billion people from groups and communities who are vulnerable to climate risks)? (max 2000 characters)

EXPRESSION OF INTEREST

Inclusion and equity

* 27. Is the initiative committed to delivering inclusive and equitable actions?

Yes

No

EXPRESSION OF INTEREST

Inclusion and equity

* 28. If yes, how will the initiative achieve inclusion and equity?

EXPRESSION OF INTEREST

Inclusion and equity

* 29. If not, what is the focus of the initiative? Who will benefit from it?

* 30. Explain if you plan to focus on delivering inclusive and equitable actions and when.

EXPRESSION OF INTEREST

Communities vulnerability to climate change

Vulnerability is the propensity or predisposition of a population, asset or natural system to be adversely affected by climate change. Vulnerability encompasses a variety of concepts and elements including sensitivity or susceptibility to harm and lack of capacity to cope and adapt (IPCC 1.5).

R2R projects may target all populations and natural systems, at all levels of vulnerability; but we want to make sure that the most vulnerable communities are targeted as much as possible, particularly those in the Global South.

* 31. Is the initiative working with communities with high level vulnerability to climate change? (tick all that apply. If not, tick "NA")

- Coastal communities/islands prone to flooding/sea level rise
- Water stressed basins
- People living in vulnerable housing
- Smallholder farmers
- Fishing communities
- NA
- Other (please specify)

EXPRESSION OF INTEREST

Historically marginalized and vulnerable people

Inclusivity and impact on marginalized and vulnerable people.

* 32. Is your initiative working with marginalized communities? (tick all that apply. If not, tick "NA")

- Women and girls
- LGBTQIA + people
- Elderly
- Children & Youth
- Racial, ethnic or religious minorities
- Refugees
- Disabled people (cognitive, hearing, eye sight, physical mobility and others)
- Low income communities
- NA
- Other (please specify)

EXPRESSION OF INTEREST

Locally Led Adaptation Principles

Our initiatives agree that local communities are on the front lines of climate change impacts, but rarely do they and other local stakeholders have a voice in the decisions that most affect them. We need to change the status quo of current top-down approaches to a new model in which local actors have more power and resources to increase resilience to climate change.

For more information about Locally Led Adaptation:

<https://www.wri.org/initiatives/locally-led-adaptation/principles-locally-led-adaptation>

* 33. Does your initiative plan to operationalize the Locally Led Adaptation Principles?

- Yes
- No

EXPRESSION OF INTEREST

Locally Led Adaptation Principles

* 34. How does your initiative address the Locally Led Principles?

EXPRESSION OF INTEREST

Concrete commitments to vulnerable people

The R2R campaign endeavors to avoid "tokenism", the practice of making only a perfunctory or symbolic effort to be inclusive to members of minority groups. Regarding diversity and inclusion, are the involvement of / impact on vulnerable and marginalized communities (VMC) intentional (i.e. the main focus of the relevant project), or are they incidental (i.e. happened by chance as a secondary impact that has been noticed and used for narrative).

* 35. What impact will the initiative have for the selected communities and/or marginalized groups? (max 2000 characters)

* 36. How are affected communities involved in the development of the initiative or its actions?

EXPRESSION OF INTEREST

Sustainability

R2R does not accept initiatives taking action which harms nature and/or ecosystems.

* 37. What is the impact of the initiative on nature or ecosystems (if any)?

- Positive
- Negative
- Both

EXPRESSION OF INTEREST

Impact on nature or ecosystems

* 38. If positive, what are the positive impacts on nature or ecosystems? (max. 2000 characters)

EXPRESSION OF INTEREST

Impact on nature or ecosystems

* 39. If negative, how do the initiatives mitigate that impact? how is environmental risks managed or minimized? (max 2000 characters)

EXPRESSION OF INTEREST

Impact on nature or ecosystems

* 40. If both, how is the positive impact on nature or ecosystems? how do the initiatives mitigate its negative impacts and minimize or manage environmental risks? (max 2000 characters).

EXPRESSION OF INTEREST

Collaboration

The initiatives must be willing to share knowledge and collaborate with other initiatives and partners to drive ambition.

* 41. Does the initiative agree to share knowledge and collaborate with other initiatives to drive ambition on building climate resilience?

Yes

No

EXPRESSION OF INTEREST

Collaboration with other partners

The initiatives must be willing to share knowledge and collaborate with other initiatives and partners to drive ambition.

The initiatives that want to join the campaign must share knowledge and collaborate with other initiatives and partners to drive ambition. If a initiative does not agree on this, it cannot be part of the campaign.

***If you press Next, you will leave this survey**

EXPRESSION OF INTEREST

New members

R2R partners initiatives helping to directly delivering R2R goal must be open to new members.

* 42. Is the initiative open to new members?

- Yes
- No
- Maybe/not for the moment

EXPRESSION OF INTEREST

New members

* 43. Please, describe how organisations and/or individuals can become members.

EXPRESSION OF INTEREST

New members

* 44. If the answer is "Maybe/not for the moment", please justify why

EXPRESSION OF INTEREST

New members

Only initiatives open to new members can join the campaign.

***If you press Next, you will leave this survey**

EXPRESSION OF INTEREST

SECTION IV: Eligibility criteria based on the Metrics Framework

Includes questions on eligibility criteria based on the Metrics Framework. It is a requirement to complete all of the questions.

You must commit to progress in the pathway to the race: Pledge, Plan, Proceed and Publish.

- **PLEDGE:** commit to setting a target for resilience action for the partner initiative and its members (which impacts or systemic shifts does your initiative pledge to achieve?). The initiative that presents a numeric pledge has between 3 and 6 months after joining the campaign to refine its Pledge(s) and ask its members to agree on it/them. If the initiative does not have a numeric pledge, it has to be willing to present a numeric pledge and present a plan (not the pledge itself) on how to make that pledge up to 3 months from the moment you are admitted in the campaign. Initiatives also have to be willing to translate the pledges into numbers of people or hectares of land with increased resilience (using the Metrics Framework we will provide).
- **PLAN:** willing to commit to presenting a clear and evidence-based plan to take action towards its committed pledge(s) in the next 3-6 months after presenting the pledge (through which actions do you or your members plan to achieve it?).
- **PROCESS:** willing to commit to taking effective and immediate action towards achieving its pledge(s) based on its plan.
- **PUBLISH:** willing to commit to providing the results and outcomes (reporting) that your actions are achieving and the evidence to back them (which validated outcomes have these actions achieved so far?).

- Creating impact at scale (e.g. benefitting over 100,000 people).
- Agreeing to share knowledge and collaborate with other initiatives to drive ambition on building climate resilience.
- Willing to raise ambition on its targets.
- Confirming the initiative has active and growing membership.

EXPRESSION OF INTEREST

Scale

R2R has a commitment to have an impact at scale - over 100,000 at a minimum for each R2R Partner - as we have a goal of reaching 4 billion people.

* 45. Does the initiative have the potential to have impact at scale?

Over 100,000 at a minimum for each R2R Partner.

- Yes
- No
- Maybe

* 46. Describe how scale will be achieved (max 2000 characters)

EXPRESSION OF INTEREST

Governance

The initiative must have the operational capacity and an active host that can collect and provide R2R with the data required for quantitative and/or qualitative metrics purposes.

* 47. How is the governance (management of the initiative & interaction with its members) set up? (max 2000 characters)

EXPRESSION OF INTEREST

Governance

* 48. Does the initiative have a Secretariat or active host that can collect data from its members and provide R2R with the data required for reporting under the R2R Metrics Framework?

- Yes
- No

EXPRESSION OF INTEREST

Governance

* 49. If not, how do you expect to be able to collect the data from your members?

EXPRESSION OF INTEREST

Member progress

The initiative must be able to track and aggregate data from members (holding them accountable to the initiative targets).

* 50. What procedures are you using to monitor the progress of your members?

- We have an existing formal Monitoring and Evaluation (M&E) procedure
- We are developing a formal M&E procedure
- We do not have a M&E procedure

EXPRESSION OF INTEREST

Member progress

* 51. Please provide a brief description on the M&E procedure you are using or designing and what is your operational capacity to put it in place.

52. If you have any document explaining your monitoring procedures in more detail, please upload it.

Choose File

Choose File

No file chosen

EXPRESSION OF INTEREST

Member progress

* 53. When do you plan to have the procedure put in place?

* 54. Please provide a brief description on the M&E procedure you are using or designing.

55. If you have any document explaining your monitoring procedures in more detail, please upload it.

Choose File

Choose File

No file chosen

EXPRESSION OF INTEREST

Pledges

Initiatives MUST be willing to make a Pledge at head of organisation.

* 56. Is the initiative ABLE to formulate a numeric pledge now?

- Yes
 No

EXPRESSION OF INTEREST

Numeric Pledge

* 57. Why are you unable to formulate a numeric metric now? do you plan to work on it? please, explain

EXPRESSION OF INTEREST

Number of people

The R2R Metrics Framework does not claim that individuals, cities, natural systems, etc. are made resilient to climate hazards, but rather that they are made

MORE resilient to climate hazards with R2R actions. Increased resilience is therefore the main indicator of interest for the Metrics Framework. If the initiative cannot translate into numbers of people at the moment, it must be willing to translate, and it can present a plan on how to do it in the future.

* 58. Is the initiative WILLING to translate targets into numbers of people that directly or indirectly increased resilience thanks to the the initiatives intervention?

Yes

No

* 59. If not, why?

EXPRESSION OF INTEREST

Number of people

* 60. Is the initiative ABLE to translate targets into numbers of people with increased resilience now?

Yes

No

EXPRESSION OF INTEREST

Number of people

* 61. If not, explain, including if you are planing to translate in the future (max 1000 characters)

EXPRESSION OF INTEREST

Type of beneficiaries

This question refers to the kind of beneficiaries you aim to reach with your actions. R2R accepts 6 types of beneficiaries:

- **Individuals:** it is the main target of the campaign and should be used by all initiatives that work directly with people, households and communities.
- **Companies:** it refers to actions that make companies more resilient to climate change risks, and thus, indirectly protect livelihoods or the provision of key services.
- **Cities, regions, countries:** it refers to actions that support local administrations in either protecting people from harm or ensuring them key services.
- **Natural systems:** actions that protect, conserve or restore ecosystems to make them more resilient to climate change and thus protect key ecosystem services.

You will be asked to provide a pledge statement for each and only the types of beneficiaries you indicate in this question.

Please consider that this question refers to the direct beneficiaries (e.g. if you work with city administrations to provide them with better water infrastructure, you are benefitting both cities and individuals but only the former are 'direct' beneficiaries).

EXPRESSION OF INTEREST

Engagement scope

* 62. Please indicate for which kinds of beneficiaries you are able to provide engagement scope of your Pledges. You can select as many options you want and will be asked to fill a pledge statement for each one you select.

- Individuals
- Companies
- Countries
- Regions
- Cities
- Natural Systems

EXPRESSION OF INTEREST

Individuals

* 63. Please indicate the number of women, men and children your initiative pledges to make more resilient.

* 64. How will this be measured?

* 65. Have you measured this target already?

- Yes
- No

EXPRESSION OF INTEREST

Companies

* 66. Please indicate the number of companies your initiative pledges to make more resilient.

* 67. How will this be measured?

* 68. Have you measured this target already?

Yes

No

EXPRESSION OF INTEREST

Countries

* 69. Please indicate the number of countries your initiative pledges to make more resilient.

* 70. How will this be measured?

* 71. Have you measured this target already?

Yes

No

EXPRESSION OF INTEREST

Regions

* 72. Please indicate the number of regions your initiative pledges to make more resilient.

* 73. How will this be measured?

* 74. Have you measured this target already?

Yes

No

EXPRESSION OF INTEREST

Cities

* 75. Please indicate the number of cities your initiative pledges to make more resilient.

* 76. How will this be measured?

* 77. Have you measured this target already?

Yes

No

EXPRESSION OF INTEREST

Natural Systems

* 78. Indicate the number of hectares of natural systems that your initiative is committed to making more resilient.

* 79. How will this be measured?

* 80. Have you measured this target already?

Yes

No

EXPRESSION OF INTEREST

Theory of Change

A theory of change is a method that explains how a given intervention, or set of interventions, are expected to lead to a specific development change, drawing on a causal analysis based on available evidence.

* 81. What is your theory of change (including the problem and your desired goal) to support the R2R campaign to deliver a step-change in global ambition for climate resilience, putting people and nature first towards a 4bn people goal?

EXPRESSION OF INTEREST

Theory of change (plan)

A plan to achieve the desired goal including long- and short-term results needed.

* 82. What are the steps you will take to achieve the solution?

* 83. What are the preconditions or requirements necessary to achieve that goal and explaining why these preconditions are necessary and sufficient?

EXPRESSION OF INTEREST

Theory of change

* 84. Have you defined qualitative and/or quantitative targets and milestones?

Yes

No

EXPRESSION OF INTEREST

Theory of change

* 85. Describe those targets and milestones.

* 86. How do you expect to monitor the progress towards your desired goal?

87. If you have any document explaining your theory of change in more detail, please upload it.

Choose File

Choose File

No file chosen

EXPRESSION OF INTEREST

Monitoring

* 88. How do you expect to monitor the progress towards your desired goal?

89. If you have any document explaining your theory of change in more detail, please upload it.

Choose File

Choose File

No file chosen

EXPRESSION OF INTEREST

Theory of change

90. Does your initiative have a formal, published theory of change backing its pledges, and do you plan to fulfill it?

- Yes, we have a formal and published theory of change
- We have a theory of change but it has not been published yet.
- We don't yet have a formal theory of change, but have plans to design one.
- None of the above (please specify)

EXPRESSION OF INTEREST

Theory of change

* 91. Describe your initiative's theory of change. Also indicate if the theory of change is aligned with the pledge(s). (max 2000 characters)

92. If you have any document explaining your theory of change in more detail, please upload it.

Choose File

Choose File

No file chosen

* 93. Describe the steps you will take to achieve the goal and/or expected timeline to design it.

EXPRESSION OF INTEREST

Theory of change

* 94. Are you willing to present a theory of change aligned with the goal of the campaign?

Yes

No

EXPRESSION OF INTEREST

Plan

* 95. Do you agree to present a clear and evidence-based plan to take action towards your committed pledge(s) in the next 3-6 months after presenting the pledges?

Yes

No

EXPRESSION OF INTEREST

Plan

* 96. If not, why?

EXPRESSION OF INTEREST

Proceed

* 97. Do you agree to take effective and immediate action towards achieving these pledge(s)?

Yes

No

EXPRESSION OF INTEREST

Proceed

* 98. If not, why?

EXPRESSION OF INTEREST

Proceed

* 99. Does the initiative already report on progress towards its commitments?

Yes

No

EXPRESSION OF INTEREST

Proceed

* 100. Describe below how you are currently reporting and please give hyperlinks to recent reports. If not, describe below how this will be undertaken and frequency. (max 2000 characters)

EXPRESSION OF INTEREST

Publish

* 101. Do you agree to provide the results and outcomes (reporting) that your actions are achieving and the evidence to back those outcomes in the future?

Yes

No

EXPRESSION OF INTEREST

Publish

* 102. If not, why?

EXPRESSION OF INTEREST

Publish

* 103. What kind of validation could you provide to back your outcomes? (max 2000 characters)

EXPRESSION OF INTEREST

New commitments

* 104. Is the initiative willing to make new commitments (to raise ambition) in the future?

- Yes
- No
- Mybe

* 105. Justify your previous answer (max 2000 characters)

EXPRESSION OF INTEREST

Submit answers

Thanks for taking the time to answer these questions. If you want, you can leave final comments or observations here. If you need to review your answers one more time, you can go back by pushing 'Prev'. When you are ready, push 'Done' to send your answers to us.

106. Final comments (optional)
