`abstractr`*Launch abstractr GUI*

Description

`abstractr()` loads interactive user interface built using R shiny.

Usage

```
abstractr()
```

Details

Start abstractr

The interactive application makes creating visual abstracts fast and intuitive. While the application has certain design elements fixed, namely layout, a vignette is included to guide customizations from scratch.

Examples

```
## Not run:  
library(shiny)  
abstractr()  
  
## End(Not run)
```
