Data Disclaimer

The primary source of data extracted and analyzed herein is Avatar, the Saint Elizabeths Hospital's electronic medical record system. Additional data source includes, but is not limited to, the Hospital's Unusual Incident Database and SiteFM. Data reflects information as entered in each system by users. The Office of Statistics and Reporting (OSR) has made reasonable efforts to ensure that data and its accompanying information are as accurate and up-to-date as possible at the time of analysis and publication but does not guarantee the accuracy, reliability, or completeness of data. The OSR is not liable for any misinterpretation or misuse of the data. Use of any information from PRISM must be fully acknowledged and/or cited. Use of PRISM data for anything other than patient care determinations or management of the services provided within the hospital (including external publications, research papers, presentations, etc.) is prohibited without written permission from the Chief Quality and Data Manager Officer at the Saint Elizabeths Hospital.

Key Trends: Admissions, Discharges, Transfers, Census, and Readmissions (1~5)

- Total admissions year-to-date did not vary far from last year’s totals at this time and the year-to-date average admissions followed suit. For June 2016, total admissions were 38 while June 2015’s total was 36. In comparison, the averages for the first six months of the each year were 38 and 35, respectively. The discharges amounted to 43 this month and 44 in June 2015. The average number of discharges for the first six months of 2015 was 41 and 37 for the same timeframe for this year. The combination of the 43 discharges and the 35 admission caused the census to decrease by 8, the largest reduction in census since June of 2015.
- The average daily census (ADC) fell to its lowest level this year going from 276 in May to 273 in June. The last time the ADC was at this level was July 2015 where there were 270.
- The eighteen emergency medical leaves (EML) matched their high for the year. Not since February have there been over 12.
- For only the second time in the last 18 months (Nov’14) has the 30-day readmission been at 0.0% and there have been no pre-trial or post-trial 30-day readmissions since January.

1. Admissions to SEH

* Number of admissions to SEH inpatient program, including transfers from forensic outpatient to inpatient program.

2. Discharges from SEH

* Number of discharges from SEH inpatient program, including transfers from inpatient to forensic outpatient program.

3. Average Daily Census

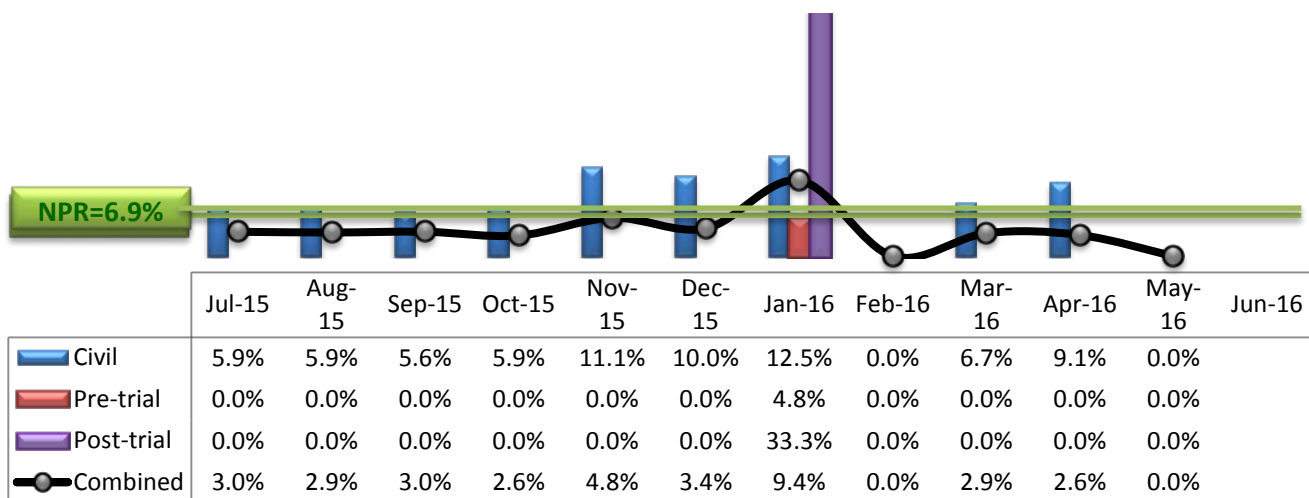

* Data above is the daily average number of individuals counted at 11:59 PM every day during each month.

4. Transfers

* Number of inter-unit transfers that occurred during month and number of emergency medical leaves that were initiated during month.

5. 30-Day Readmission Rate

* Percent of discharges that returned to SEH within 30 days of discharges. It does not include those who may have been re-hospitalized at another psychiatric facility. This measure requires 30-day observation following discharge.

** The post-trial denominators (discharges) per month range only between one and six, making the monthly re-admission rate high when there is any. For example, in December 2014, there was only one post-trial discharge, which was readmitted within 30 days. Thus, the 30-day readmission rate for post-trial discharge for this month is 100%.

Key Trends: Unusual Incidents (6~17)

- There were 119 Major Unusual Incidents (UI) in June 2016, which was the most since last October and accounted for the largest percentage (61%) of all UIs of any month since January.
- Each Severity level of UI (Low, Medium, High) has been relatively flat for the last 7 months. The last time any individual severity level changed significantly was Nov'15 where the Medium level decreased 69%.
- Aggressive Behavior UIs continue to be the most reported type of violence related UI. However, this month saw the largest decrease since Oct-Nov'15 going from 74 in May to 59 in June, a decrease of 20%.
- No major patient injuries reported for only the second time in the last 12 months.
- The elopement rate dropped to zero for the 6th time in the last year. Over that time span, April has been the only month where there was more than one elopement.

6. Unusual Incidents

7. Patient-Involved Unusual Incidents

	Jul-15	Aug-15	Sep-15	Oct-15	Nov-15	Dec-15	Jan-16	Feb-16	Mar-16	Apr-16	May-16	Jun-16
# of Patient-Involved UIs	221	187	205	244	148	136	170	174	178	190	194	182

Total UI	231	202	222	254	155	144	184	187	189	196	200	194

10. Selected Types of Incidents

	Jul-15	Aug-15	Sep-15	Oct-15	Nov-15	Dec-15	Jan-16	Feb-16	Mar-16	Apr-16	May-16	Jun-16
◆ Aggressive Behavior	83	75	83	103	52	50	67	69	66	69	74	59
● Physical Assault	48	45	62	74	46	38	46	43	44	60	47	46
* Pysch Emerg.	39	28	59	55	22	7	19	20	19	27	31	27
■ Fall	31	33	23	25	25	22	26	24	25	33	31	36
▲ Injury	36	31	39	45	23	14	31	34	25	32	30	30

* These are incident types that are frequently reported. Some incidents may be counted in multiple categories. For example, a physical assault incident that accompanied psychiatric emergency and injury is counted under psychiatric emergency and injury as well as under physical assault. Injury is broadly defined to include any type of injuries regardless of the cause or severity level.

11. Physical Assaults by Severity

* Any physical assault that accompanies a code 13 or results in extensive injury needing off-unit treatment or transfer to ER is considered to be high severity; any physical assault that causes a minor injury that can be treated on unit is considered to be medium severity; and physical assault events that result in no injury are considered to be low severity.

12. Patient Injuries

	Jul-15	Aug-15	Sep-15	Oct-15	Nov-15	Dec-15	Jan-16	Feb-16	Mar-16	Apr-16	May-16	Jun-16
Total Pts Injured	26	20	32	34	15	9	25	23	12	24	19	20
Major Pt Injuries*	1	3	3	1	3	1	0	1	2	2	1	0
Patient Injury Rate	0.12	0.36	0.37	0.12	0.36	0.12	0.00	0.12	0.24	0.24	0.12	0.00

* Injury is broadly defined to include any type of injuries regardless of the cause or severity level. The total number of patients injured represents all of the reported injuries including minor injuries treated with first aid alone. However, the patient injury rate considers only the number of patient injuries that are required beyond first-aid level treatment based on the NRI definition and the patient injury rate is the number of 'major' patient injuries per every 1000 inpatient days

13. Staff Injuries

* Injury is broadly defined to include any type of injuries regardless of the cause or severity level. The total number of staff injured represents all of the reported staff injuries including minor injuries treated with first aid alone.

14. Patient and Staff Falls

	Jul-15	Aug-15	Sep-15	Oct-15	Nov-15	Dec-15	Jan-16	Feb-16	Mar-16	Apr-16	May-16	Jun-16
Total Staff who Fell	1	2	2	4	0	3	0	4	2	1	3	2
Total Patients who Fell	30	32	22	26	25	20	27	24	24	33	28	34
Patient Fall Rate	3.64	3.79	2.71	3.08	3.02	2.34	3.14	3.00	2.84	4.02	3.32	4.23

* The patient fall rate is the number of patient falls per every 1000 inpatient days.

15. Percent of Patients Restrained or Secluded

	Jul-15	Aug-15	Sep-15	Oct-15	Nov-15	Dec-15	Jan-16	Feb-16	Mar-16	Apr-16	May-16	Jun-16
Restraint	6.9%	5.8%	7.9%	10.9%	5.6%	6.2%	7.7%	8.1%	11.6%	10.6%	7.1%	8.7%
Seclusion	2.0%	4.8%	4.3%	5.1%	4.0%	3.2%	5.1%	4.1%	3.5%	4.2%	4.2%	2.6%

* Percent of unique patients who were restrained at least once and percent of unique patients who were secluded at least once. The denominator includes all individuals who were served in care 1+ day during month.

** Prior to April 2015, the Hospital tracked only mechanical restraint events, but the Hospital's restraint policy has changed to include any physical holds. The sudden increase of the restraint data as of April 2015 reflects this change.

16. Restraint Hours Rate & Seclusion Hours Rate

	Jul-15	Aug-15	Sep-15	Oct-15	Nov-15	Dec-15	Jan-16	Feb-16	Mar-16	Apr-16	May-16	Jun-16
Restraint	0.163	0.008	0.031	0.086	0.052	0.032	0.038	0.123	0.142	0.207	0.104	0.194
Seclusion	0.067	0.062	0.260	0.281	0.043	0.047	0.099	0.136	0.093	0.196	0.137	0.100

* Restraint/Seclusion Hours Rate: Number of hours spent in restraint/seclusion for every 1000 inpatient hours.

** The duration of each physical hold event is counted as 1 minute as a physical hold is ordered and used only as a temporary intervention that lasts less than a minute to break up any physical conflicts or to administer emergency medications.

17. Elopements

* Data herein counts the number of unauthorized leaves for any duration that were initiated during month and were recorded in Avatar. The elopement rate is the number of those unauthorized leaves that occurred for every 1000 inpatient days.

Key Trends: Medication Documentation, MV, ADR, and STAT (18~22)

- The number of Medical Variances (MV) steeply declined this month decreasing from 26 in May to 12 in June 2016 and the Medical Variance rate decreased accordingly, dropping from 3.08 to 1.49, which means that there was approximately 1 MV every 2.5 days this month.
- The percentage of Missing Medical Administration documentation has risen for the 3rd consecutive month and is approaching 1%. The 0.93% of missing documentation is at its' highest level since June 2015.
- There were more individuals with at least one STAT (emergency medication) event this month. That figure rose by 7 despite a lower average daily census. Total stat orders, however, only increased by one rising from 139 to 140.
- The highest number of STAT orders for a single IIC in May was 15, which was experienced by two patients.

18. Reported Medication Variance Events

* MV Rate: Number of reported medication variance events that occurred for every 1000 inpatient days.

19. Reported Adverse Drug Reactions

* ADR Rate: Number of reported adverse drug reaction events that occurred for every 1000 inpatient days.

20. Percent of Missing Documentation on Med-Administration

21. Medication Refusal Rate*

* Medication Refusal Rate: the number of refused medication doses divided by the total number of doses scheduled for administration.

22. Number of STAT Events and Individuals Involved

	Jul-15	Aug-15	Sep-15	Oct-15	Nov-15	Dec-15	Jan-16	Feb-16	Mar-16	Apr-16	May-16	Jun-16
IICs w/ >=1 STAT	31	34	38	49	31	18	37	37	29	25	24	31
IICs w/ >=3 STAT Events	7	7	11	15	2	5	3	6	6	7	10	8
Total STAT Events	66	62	83	119	53	66	52	71	52	80	65	67
Total STAT Orders	141	138	182	251	112	149	110	138	128	164	139	140

Key Trends: Environment of Care (23)

- Almost 75% of work orders were completed within 3 days during the month of June. It represents an increase of 3% despite an increase of 6% in the total number of work orders for the month.
- The June total (74%) is the highest completion rate achieved this year.

23. Percentage of SiteFM Work Orders Completed within 3 Days

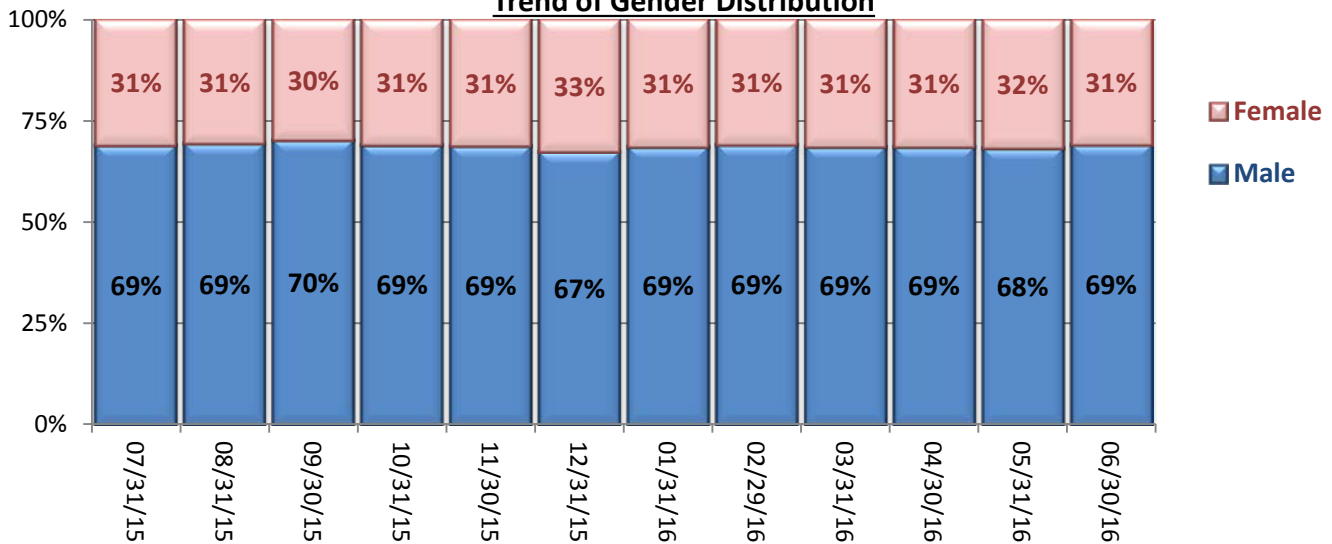

Key Trends: Demographics, Legal Status, and Length of Stay (24-25)

- The percentage individuals who are younger than 30 continues to decline and has been doing so rather steadily since February 2016. From February to June it has declined 6% falling from 16 to 10%.
- The median age of the individuals in care has been either 55 or 56 years of age virtually since we began measuring this statistic. This is the first month it's been under 55.
- For the fourth straight month (beginning in March 2016) the proportion of individuals in Post-trial, Pretrial and Civil status has remained virtually the same. Civil has been 44% of the population while Post-trial and Pre-trial has been at 28% during that time span.
- Thirty-two percent, or almost one-third, of the individuals in care on June 30th has had a length of stay between 1 and 2 years. This is a 5% drop from the totals in January where the total was 37%, the peak year-to-date.
- The average Length of Stay (LOS) for individuals in a Civil commitment has increased over 11% (174 days) in the last 12 months ending June 2016, rising from 1567 days (4.3 years) in July 2015 to 1741 days (4.7 years) June 2016. Overall, however, the average LOS has slightly decreased during that same period.

24. Demographics

Trend of Gender Distribution

Trend of Age Distribution

Trend of Legal Status Distribution

25. Length of Stay

Average and Median Length of Stay for Individuals in Care

* National Public Rate, NASMHPD Research Institute, National Research Institute (NRI), Data as of June 2013, Published in November 2013.

** Numbers may change if any additional UI report is made after the data run date from UI database (around the 15th of the following month); According to the revised UI policy as of November 4, 2013, a medication variance (MV) incident became no longer considered to be an unusual incident, and a medication or vital sign refusal incident is not longer an UI as of May 2014. UI data for the past 12 months in this report has been updated to reflect this change and reanalyzed in order to show the UI trend in consistent logic.

*** Injury is broadly defined to include any type of injuries regardless of the cause or severity level. The total number of patients injured represents all of the reported injuries including minor injuries treated with first aid alone. However, the patient injury rate considers only the number of patient injuries that required beyond first-aid level treatment based on the NRI definition and the patient injury rate is the number of 'major' patient injuries per every 1000 inpatient days

**** One STAT event may involve more than one STAT order for the same patient. Any orders placed within 20 minute timeframe are considered to belong to one STAT event. All STAT order counts are from Pharmacy only...no LABS orders,etc...

* National Public Rate, NASMHPD Research Institute, National Research Institute (NRI), Data as of June 2013, Published in November 2013.

** Restraint data prior to April 2015 includes only mechanical restraints. The Hospital's restraint policy has been revised to consider a physical hold a restraint and data as of April 2015 reflects this change. The duration of each physical hold event is counted as one (1) minute as a physical hold is ordered/used only as a temporary intervention that lasts less than a minute to break up any physical altercations or to administer emergency medications.
