

Health Regulation and Licensing Administration

March 28, 2023

RE: Online Application Portal

Dear Stakeholders,

The Health Regulation and Licensing Administration is excited to announce that we have launched the Division of Radiation Control and Medical Devices' online application portal which is now live. On this portal you can complete all applications related to the Division of Radiation and Medical Devices.

Please visit <https://dchealth.force.com/Application/s/login> to submit your online application to the Division of Radiation Control & Medical Devices.

The following application types are available for submission:

- Body Arts Facility
- Tanning Facility
- Tanning Equipment and Devices
- Tanning Managers ID

You are required to create an account, complete the application, upload any requested support documentation, and submit payment. Our review team will review your application and respond to you via email. Please note that you will only be required to create an account once (you will use the same account for any business you do with the Office of Food, Drug, Radiation and Community).

We do recommend using Google Chrome for optimal functionality. Effective April 10, 2023, DC Health/Division of Radiation Control and Medical Devices is no longer accepting paper applications.

If you have any questions or have any issues, please feel free to contact us at greg.talley@dc.gov, nia.harris2@dc.gov, or Nasreen.parvin@dc.gov.

For more information, please visit the Division's webpage:
