

**DISTRICT OF COLUMBIA
HEALTH INFORMATION
EXCHANGE
POLICY BOARD MEETING**

July 20, 2023 | 3:00 PM – 5:00 PM

THIS MEETING IS BEING RECORDED

Department of Health Care Finance | Remote Meeting

Virtual Meeting Processes

To increase engagement, turn on your video

Mute your microphone upon entry, and until you are ready to speak

Use the chat function to introduce yourself: **Name, Title, Organization**

Putting your phone on hold, due to an incoming call, may disrupt the meeting

If you have comments or questions, please use the **'Raise Hand'** feature and speak clearly

Voting on a recommendation will require you to say: **Your name followed by either 'aye', 'nay', or 'abstain'**

July HIE Policy Board Meeting Agenda

01

Welcome and Call to Order

- Virtual Meeting Processes
- Roll Call
- Announcement of Quorum

02

Subcommittee Reports

- **Board Action:** Vote to approve recommendations on operational and governance considerations for the DC CRI

03

Designated HIE Entity Updates

- CRISP DC Participation Agreement
- Quarterly project updates and announcement of new functionalities

04

Introducing *PopHealth Analytics* Tool

- Progress update on multi-year strategy for analytics through the DC HIE
- Demo of the tool and overview of features

05

Digital Health Division Updates

- Policy Guidance Development
- Updates from the DC HIE Interagency Data Use Workgroup
- HCBS Digital Health Outreach & Technical Assistance (TA)

06

Public Comments

07

Next Steps/Adjournment

Roll Call and Announcement of Quorum

HIE Policy Board Announcements and Open Positions

HIE Policy Board Vacancies

- Help us fill vacant positions! Interested parties may apply directly on the [Mayor's Office of Talent and Appointments \(MOTA\) website](#). All are welcome to apply! Vacancies are listed below –

Two (2) Public
Members

One (1) Medical
Provider

District Medicaid Renewals

Medicaid Eligibility Renewals began April 1, 2023

Alliance and Immigrant Children's Program renewals began in July 2022

Communication and Beneficiary Outreach efforts include:

- ✓ Text Messaging
- ✓ Robocalls
- ✓ Citywide Advertising
- ✓ Stakeholder Trainings
- ✓ Community Meetings
- ✓ Stakeholder Toolkit

Beneficiaries may log into District Direct to see notices when their renewals will be up – and take action!

You may contact Medicaid.renewal@dc.gov for more information

Community Resource Inventory (CRI) Subcommittee

Lucy DeOliveira and Khalil Hassam

Allocated Time: 3:05 - 3:20 PM (15 mins.)

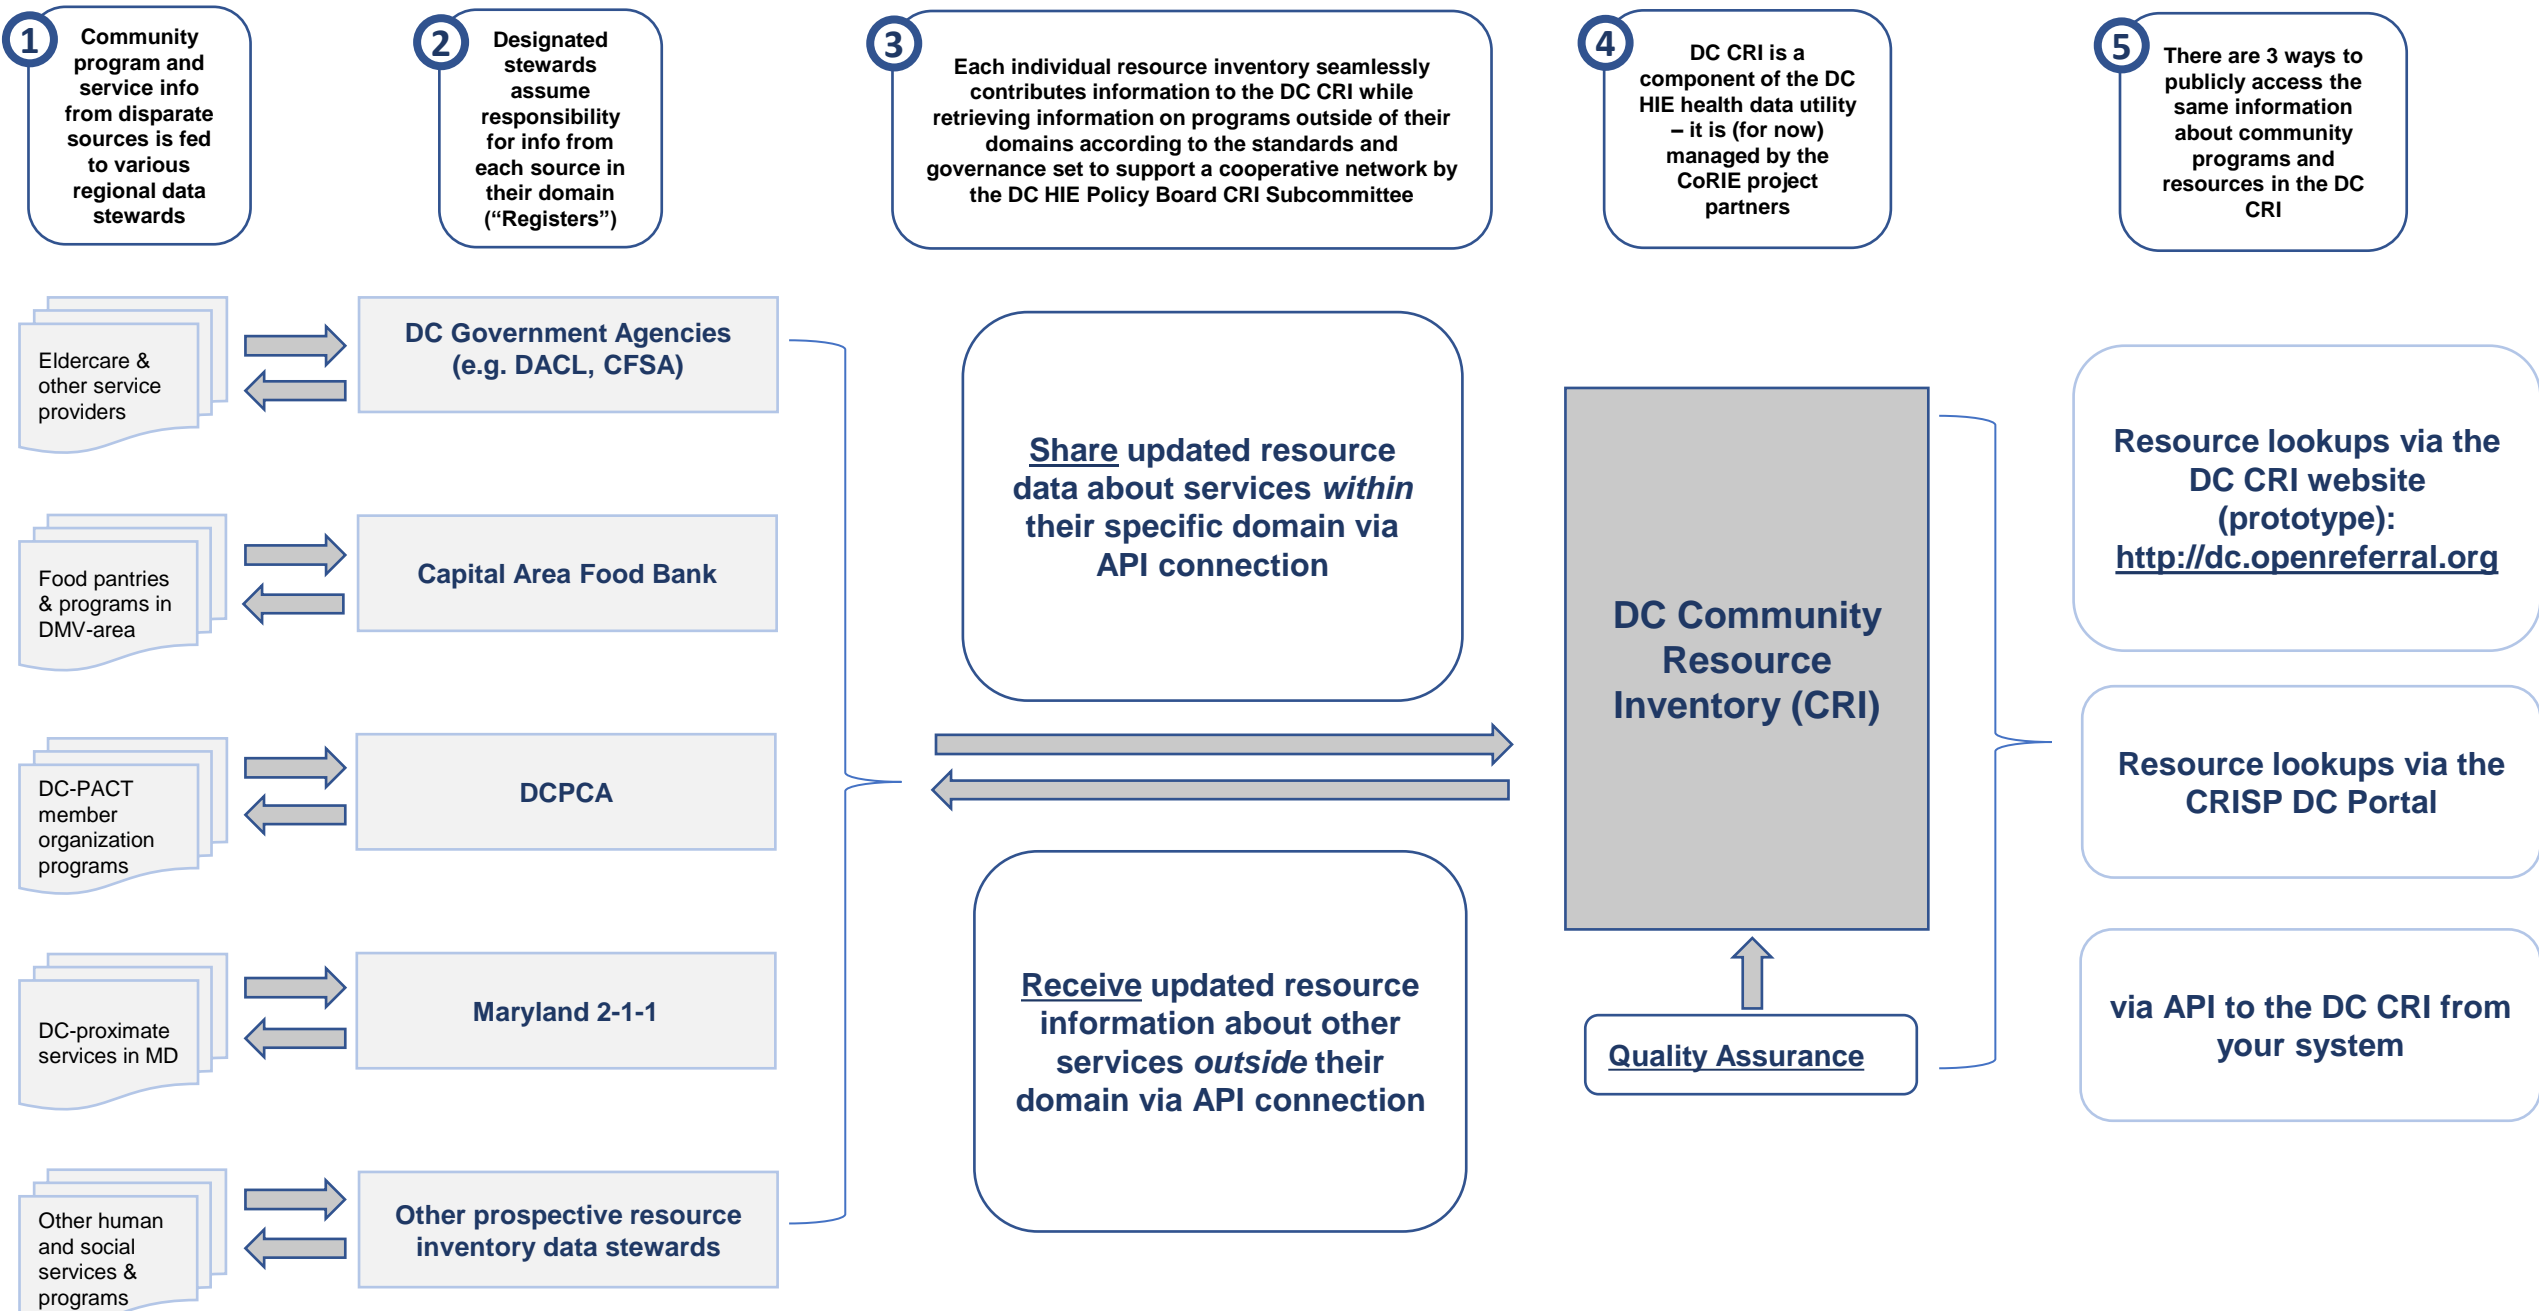

HIE PB Community Resource Inventory (CRI) Subcommittee

- **Co-Chair**: Ms. Luizilda de Oliveira and Mr. Khalil Hassam
- **Mission**: Build the capacity of HIE stakeholders to share, find and use information about resources available to address health related social needs and improve health equity.
- **Purpose**: Develop recommendations for consideration by the HIE Policy Board that are related to the use, exchange, sustainability, and governance of community resource directory data through the District HIE infrastructure.

FY 23 CRI Subcommittee Workplan

Activities	Timeframe
<p>Goal 1: Inform registration and designation requirements for the DC CRI proposed rule.</p> <ul style="list-style-type: none"> • Provide feedback and inform the development of the DC CRI proposed rule as it relates to – <ul style="list-style-type: none"> • Registered and Designated CRI entity requirements and application • Information collection and content management requirements • Audit and educational requirements for designated CRI entities 	<p>December 2022 – July 2023</p>
<p>Goal 2: Inform inter-governmental collaboration on CRI</p> <ul style="list-style-type: none"> • Ensure alignment of CRI proposed rule with existing structures related to community-bases services to encourage the use of the DC CRI. • Inform the development of MOUs or other items to establish collaboration with other HHS cluster agencies. • Draft recommendations to HIE Policy Board. 	<p>December 2022 – October 2023</p>
<p>Goal 3: Analyze and discuss any ongoing data governance issues to ensure reliable maintenance and curation of DC CRI data</p> <ul style="list-style-type: none"> • Provide oversight of the data maintained in the CRI, including ensuring that the data are maintained in accordance with nationally recognized standards • Inform guidance for the data maintained in the DC CRI related to Inclusion/Exclusion policies, style guides, creation of service records, and other initiatives/tools as they begin. • Develop a DC CRI Glossary that outlines operational terminology and definitions to standardize language used in the District as it relates to community resource information. • Draft recommendations to HIE Policy Board. 	<p>December 2022 – October 2023</p>
<p>Long-Term/ Regular Subcommittee Activities</p> <ul style="list-style-type: none"> • Provide recommendations on any updates to terms and definitions as part of the DC CRI Glossary • Inform the development of performance metrics for designated CRI entities. • Recommend updates to the core minimum set of data contained for each service record in the DC CRI. • Work collaboratively with HIE Policy and Stakeholder Engagement subcommittees on any updates to the HIE final rule to reference the DC CRI and to create any educational materials to increase the use of the DC CRI. 	

The DC CRI requires community participation to ensure records for programs and services offered are up-to-date

CRI Subcommittee – *Accomplishments so far*

CRI Subcommittee – *Initial Work*

- DC PACT’s CRI Action team recommendations for data maintenance
- Review of data sustainability and technical models (such as service register, collaborative, and data utility)
- Measures to support operations of the CRI by answering open questions:
 - Anchor institution and shared oversight
 - Formal governance model (via proposed rulemaking)

Initial Work

April 2021

CRI Subcommittee – *Accomplishments so far*

CRI Subcommittee – October 2022 Recommendations

- Three (3) over-arching recommendations on data governance and sustainability
- Approved by Policy Board in Oct 2022
- Recommended that there be a formal governance structure to operate and maintain the DC CRI.
- Assigned the role of “regular research and deliberation on data governance” by providing feedback to any draft regulations

Recommendation 1

- The DC CRI should be composed of registered and designated CRI entities that participate in a collaborative, federated network, share data management responsibilities, and bidirectionally exchange resource data.
- Establish the DC CRI as a data utility – a regulated public private partnership with sufficient staff capacity and funding to ensure open, publicly-accessible, accurate, and up-to-date community resources and services.
- District agencies that provide, accredit, or fund community-based programs or human services should keep an up-to-date record of those programs, make it available in a standardized data format to the DC CRI, and establish policies to ensure the reliability of this information, in coordination with the HIE Policy Board.

Recommendation 2

- DC government agencies should consider requiring participation in the CRI from service providers, third party referral providers, and associated software vendors that receive public funds for care coordination.

Recommendation 3

- The DC HIE Policy Board should ensure a subcommittee, workgroup, and/or technical evaluation panel that is committed to continued research and deliberation on ongoing resource data governance challenges that may arise over time.
- Such a subcommittee or workgroup would be tasked with ensuring that the assets of the DC CRI remain reliably maintained, usefully curated, and openly accessible to all DC stakeholders, and that the rules pertaining to the management and use of the CRI continue to be set by a participation of designated representatives.

First Set of Recommendations

Oct 2022

CRI Subcommittee – Accomplishments so far

CRI Subcommittee – *Discussion on Formal Governance and Operational Structures*

- Discussed specific requirements for a proposed rule, including requirements for registered and designated entities, the application process, and additional operational requirements.
- Discussed specific requirements for operational elements, such as:
 - Categories for service records
 - Publicly accessible website
 - Data quality assurance
 - Annual reporting
 - Definitions for CRI and CBO
- Reviewed the role of the DC CRI in addressing Health Related Social Needs (HRSN) and its position as an artifact of the DC HIE.

Operational and Governance Elements

Nov 2022 – Present

CRI Subcommittee Governance and Operational Elements

- Based on its review, the subcommittee has two (2) recommendations.

Recommendation #1

Governance Elements

For inclusion in the HIE final rule

- Designated HIE Entity as a Partner to Address HRSN
- Definitions for CRI and Community-Based Organizations
- Responsibility for the DC CRI Delegated to the Designated HIE Entity

Recommendation #2

Operational Elements

Future guidance

- Content Collection
- Content Management and National Standards
- Content Curation and Data Quality Assurance
- Public Accessibility
- Annual Reporting
- Process for Regular Updates

A copy of the full recommendation is available for review in meeting materials (sent via email and on the Policy Board website)

Board Action
Operational and
Governance
Elements

Vote to approve governance

District Designated HIE Entity Updates

Stephanie Brown
Executive Director
CRISP DC

Allocated Time: 3:25 – 3:40 PM (15 mins.)

Notice of Assignment – The CRISP DC PA

CRISP DC

To Whom It May Concern:

Chesapeake Regional Information System for our Patients, Inc. (“CRISP”) and [PARTICIPANT] are parties to the Participation Agreement (the “Agreement”). Section 22.04 of the Agreement states that the Agreement may be assigned based on the planned reorganization of CRISP DC, LLC into a non-profit corporation. CRISP DC, a non-profit corporation, was incorporated in 2022, with corresponding assets assigned on or before June 30, 2023. Therefore, in accordance with Section 22.04 of the Agreement, this letter is a notification that the Participation Agreement has been assigned to CRISP DC, Inc.

All required notices can now be directed to CRISP DC, Inc. at the same address identified in the Agreement.

Feel free to contact our General Counsel, Nichole Sweeney at nichole.sweeney@crisphealth.org if you have questions.

CRISP DC Consent Tool – Access Through the App

The screenshot shows the HIE InContext mobile app interface. At the top, it displays 'Female | Nov 16, 1981'. Below this are tabs for 'HEALTH RECORDS', 'ENCOUNTERS', 'PROBLEMS', 'STRUCTURED DOCUMENTS', and 'IMMUNIZATIONS'. The 'HEALTH RECORDS' tab is active, showing a list of records with columns for 'Date Collected', 'Source', 'Description', and 'Provider'. A tooltip is visible over the 'Source' column, stating: 'Consent Tool allows treating providers and their staff to register a patient's affirmative consent to share data protected by 42 CFR Part 2 and, as applicable, other legally protected data. Click here to access in a new tab.' The left sidebar contains menu items: PATIENT INFORMATION, CLINICAL DATA, MEDICATION MANAGEMENT, CARE COORDINATION, SOCIAL NEEDS DATA, DATA FROM CLAIMS, CONSENT TOOL (highlighted with a mouse cursor), and PDMP.

Date Collected	Source	Description	Provider
2022-07-21	CRISP_REFER	Referral for further care	—
2022-07-05	CRISP_REFER	Referral for further care	—
	CRISP_REFER	Referral for further care	—
	CRISP_REFER	Referral for further care	—
	CRISP_REFER	Referral for further care	—
2022-05-17	CRISP_REFER	Referral for further care	—

The screenshot shows the CRISP DC web application interface in a browser. The address bar shows 'consentric-crisp-uat.leaporbit.com/consent-landing-page'. The page has a blue header with 'CRISP DC' and navigation links for 'Consent' and 'Consent History'. Below the header, there is a section for 'Consent Types' and a form field labeled 'Part II Provider'.

CRISP DC – Project Updates

- The CRISP DC has completed the integration to show the DC CRI data through the CRISP Program Directory within the portal.
- **Reminder:** Digital documentation of advance care planning documents is available through CRISP. Please reach out to Corey.Main@crisphealth.org if you are interested in gaining access to this tool.

Guidance from DC HIE PB Technical Expert Panel

Discharge Elements

Discharge Diagnosis	Reason for Visit	Laboratory Results	Immunizations <i>In Progress</i>
Discharge Medications	Medication Allergies	Discharge Appointments	Vital Signs
Plan of Care * <i>Future Phase</i>	Procedure Notes * <i>Future Phase</i>	Consult Notes * <i>Future Phase</i>	Point of Contact * <i>Elements on Hold</i>
Summary of Care * <i>Elements on Hold</i>	Z-Codes <i>Additional Element Parsed and Displayed</i>		

*Clinical notes section displays transcription messages (discharge summaries, clinical notes, operative narratives, EMS runsheet)

*Next of kin relationship and contact info is in patient care snapshot

Data Elements from the Technical Expert Panel

Discharge Element	Available in CRISP?	Data Element Parsed from CCDs?	Location in CRISP DC Portal
Discharge Diagnosis	Yes	Yes	Patient Care Snapshot
Reason for Visit	Yes	Yes	Patient Care Snapshot
Lab Results	Yes	Yes	Clinical Data, Health Records, Laboratory
Immunizations	Yes, Partial, MD Registry Data is Viewable	In Progress to Pull from DC CCDs	Clinical Data, Immunizations
Discharge Medications	Yes	Yes	Medication Management, Captured Medications
Medication Allergies	Partial	No, Future Iteration	Clinical Data, Health Records, In CCDs
Discharge Appointments	Partial	No, Future Iteration	Clinical Data, Health Records, In CCDs
Vital Signs	Partial	No, In Analysis	Clinical Data, Health Records, In CCDs
Plans & Summary of Care	Partial	No	Clinical Data, Structured Documents
Procedure & Consult Notes	Partial	No	Clinical Data, Structured Documents
Point of Contact	Partial	Yes	Patient Information, Demographics and Next of Kin
Z-Codes*	Yes	Yes	Social Needs Data, Conditions

*Z Codes are being parsed and displayed but were not a formal recommendation from the TEP.

Introducing - CRISP DC PopHealth Reporting

Goodbye, CRISP Reporting Services (DC CRS) Hello, PopHealth!

Analytics Now in the CRISP DC HIE Portal alongside ALL your HIE Tools

The CRISP DC HIE Portal is your new gateway to reporting. Starting **June 12th, 2023**, users will no longer access reports through the previous platform/URL. Users will access the reports directly through the CRISP DC HIE Portal!

All Your Work in One Place!

Simply log into the CRISP DC HIE Portal for all your CRISP work. Your credentials will grant you access to the secure web-based analytics suite of reports. **Existing users will retain access to all previously assigned reports**, enabling them to continue identifying trends and providing insights into enhancing patient care across the District.

Update on DC HIE Population Health Analytics Tools

Deniz Soyer
Division Director
DHCF

Vinay Balani
Data Analyst
hMetrix

Allocated Time: 3:40 – 4:15 PM (35 mins.)

CRISP DC PopHealth Analytics tool is 1 of 6 Core Capabilities that make up the DC HIE Infrastructure

Critical Infrastructure
(e.g. Encounters and Alerts)

ADT Alerts

Health Records

Patient Snapshot

Image Exchange

Consent to Share Data

Consent to Share SUD Data

-SUD (42 CFR Part 2)
Data Consent
-HIPAA Consent
-Telehealth Consent

Registry and Inventory

Care Management Registry

Community Resource Inventory

Advance Care Planning

Simple and Secure Messaging

Provider Directory

Screening and Referral (e.g. SDOH)

Referral and Screening

-Social needs screening for housing and food insecurity

-eReferral to community resources and social supports

Advanced Analytics for Population Health Management

PopHealth Analytics

Utilization and performance dashboards

Vaccine Tracker

DHCF is prioritizing the development of basic and advanced analytic population health management capabilities in the DC HIE over a multi-year period

	Basic Analytics	Advanced Analytics
Development	FY22 – FY23	FY23 – FY25
Data Source	Primarily claims-based	Data from multiple sources is leveraged and transformed into a usable format
Features and Uses	<ul style="list-style-type: none">• Reports on demographic, health utilization, and cost metrics for patients in a panel• Compare data points for different timeframes or understand utilization patterns and trends over time.• Ability to monitor progress in quality measures reporting and incentive programs• Define and/or compare one or more populations (i.e. chronic disease, program enrollment, or other groupings)• Easily identify patients who meet criteria for a specific action to improve patient health	<ul style="list-style-type: none">• Risk stratification to identify high-cost, high-utilization, members with chronic disease• Upload subpanels for programs to conduct in-house evaluations (pre-/post-interventions)• Visualization tools to strengthen communication across clinical and non-clinical settings• Guide care management efforts related to patient follow-up after acute care encounters• Predictive risk models based on claims and clinical data to support interventions• Measurement based care capturing and monitoring patient reported outcomes₂₉

PopHealth Analytics Vision

- PopHealth Analytics tool enables **population-level and panel-level management** through clinical and administrative data – it is designed with the diverse group of DC HIE users in mind and to support their analyses and interventions.
- The tool is **not currently tied to performance monitoring of DHCF VBP or P4P** initiatives. However, developing and enabling use of these tools now will support readiness for such initiatives in future.

PopHealth User Support

05

Overview of PopHealth Platform and Future Growth

Current Data in the Reports

- Medicaid and Alliance Claims data coming directly from DHCF (bi-weekly)
- Lab data and Z-code data from parsed ADT and CCD messages coming from CRISP DC (monthly)
- Data available from November 2018 to present
- Current data is representative of DC Medicaid and Alliance Members

Note: All data in this presentation is demo data and does not include PHI (and therefore can be shared with others)

The PopHealth Analytics Tool Currently has Nine (9) Categories of Reports in Production

Utilization and Quality Reports

Insights into utilization patterns and quality of care

Population Summary Report

High-level utilization and demographic information

Readmission Reduction Report

Readmissions rates and patterns

CMS Core Set Measures Reports

Medicaid and CHIP quality measures

Pediatric Health Reports

Utilization and performance of recommended procedures

Prescription Drug Reports

Prescription drug utilization, prescribing trends, and tracking out-of-sync-beneficiaries

Medicaid Payment Reports

Identify cost drivers, monitor trends in expenditure patterns

Skilled Nursing Facility (SNF) Report

View overall SNF utilization for patients

Nursing Facility Census Report

List of beneficiaries residing within a nursing facility

Population Navigator

Filter or sort based on values in any column (additional columns not shown)

Population Navigator

Create Roster for viewing Reports for a targeted population

Filter panel by chronic condition, utilization-based measures, and PQI history

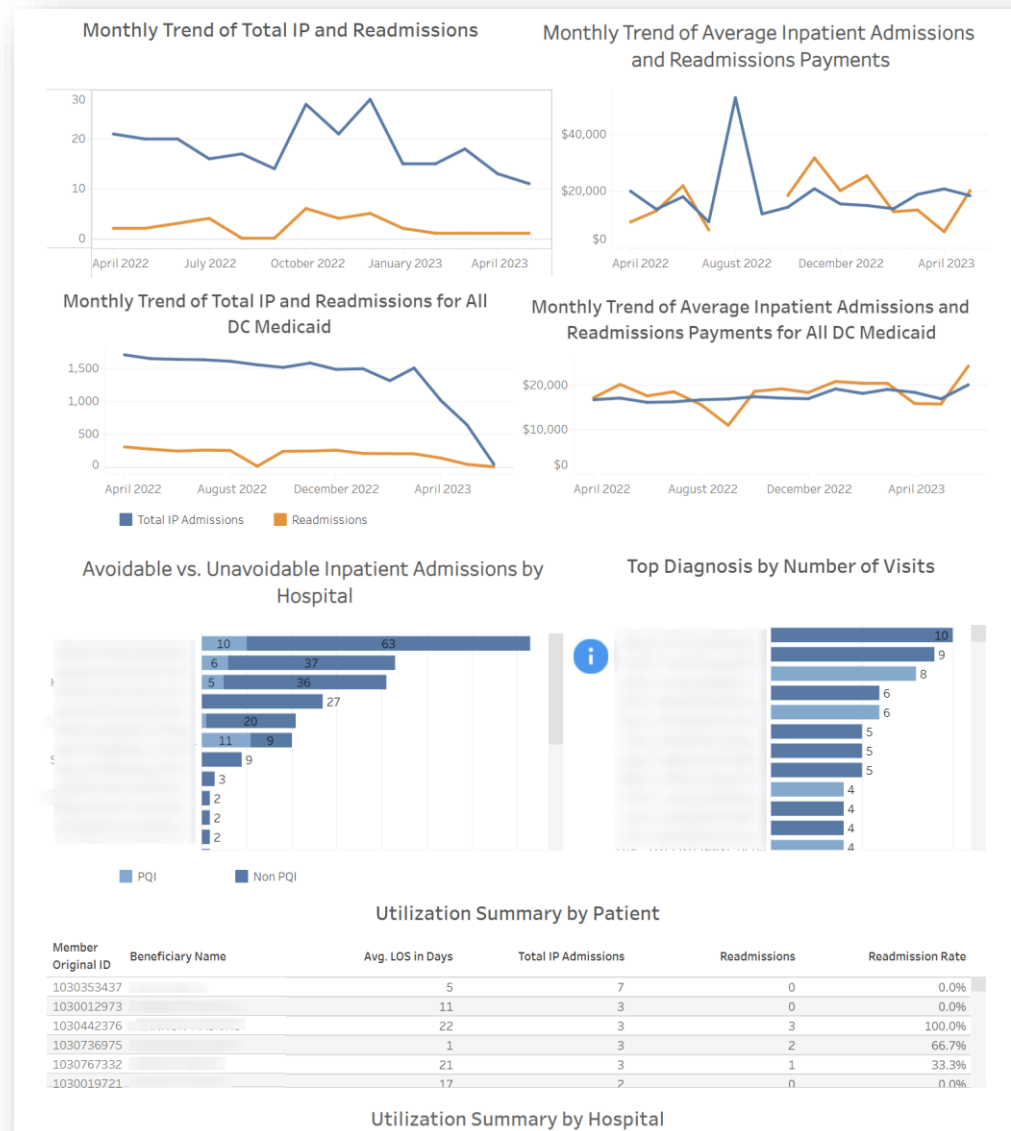

Track utilization of acute care settings

Acute Care Setting Utilization Report

- This report tracks inpatient hospital admissions and emergency department visits.
- Toggle between the Inpatient (IP) Hospital or Emergency Room (ER) settings to analyze trends, top diagnosis, and utilization summary.
- Drill-through to Beneficiary and Claim-level details.

Reference Groups

- All DC Medicaid
- Peer Group – aggregation of all other FQHCs

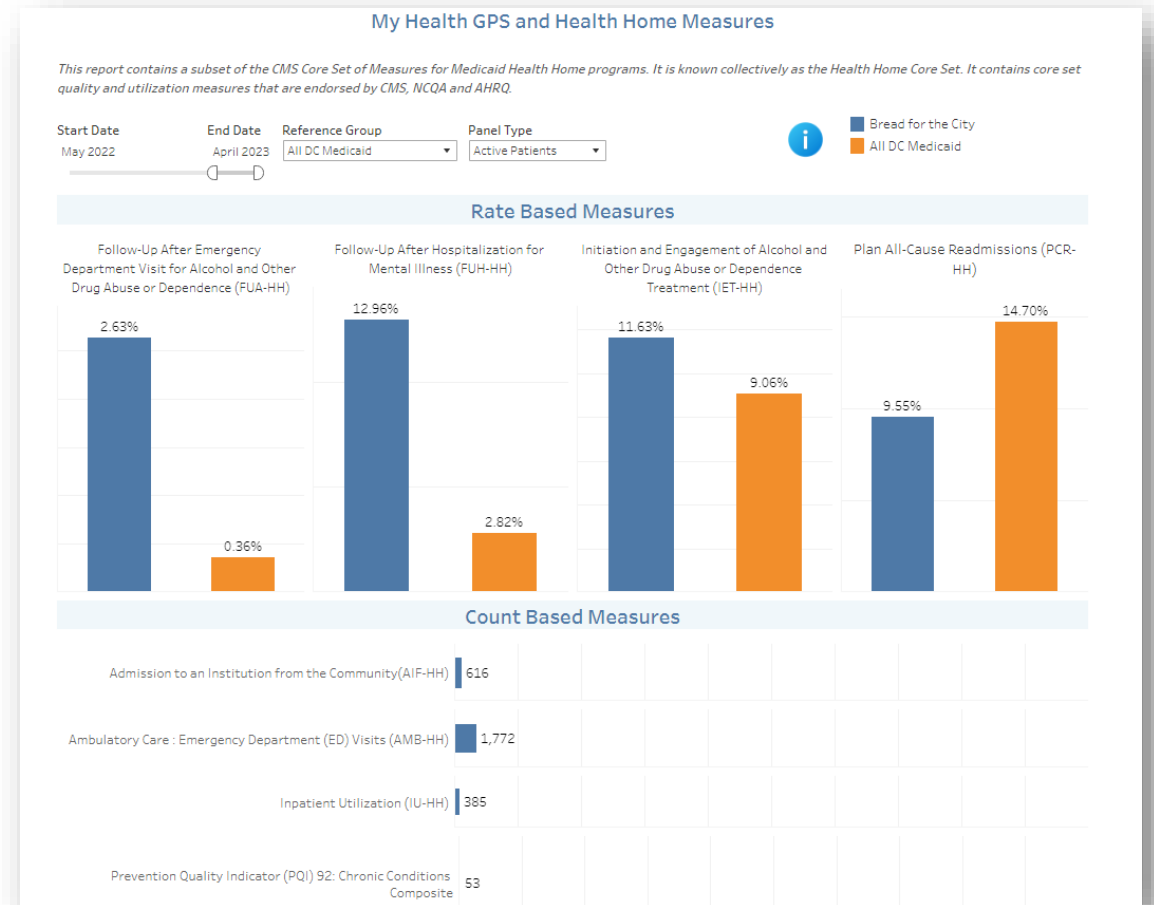

Track quality and utilization performance

Health Home Measures Report

- Use this report to track subsets of CMS Core Set of Measures for Medicaid Health Home programs.
- Individual Measure dashboards on selection.
- Drill-through to Beneficiary and Claim-level details.

Reference Groups

- All DC Medicaid
- Peer Group – aggregation of all other FQHCs

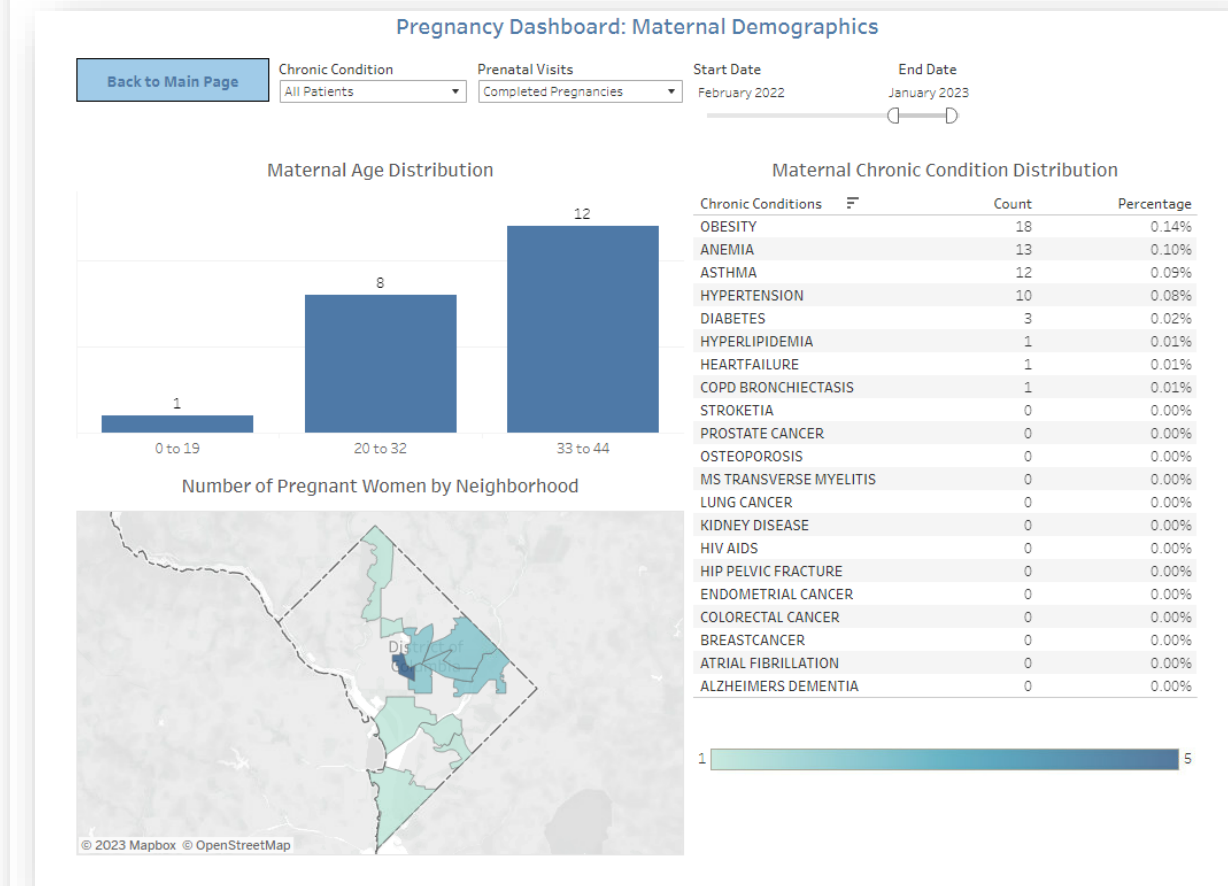

Track utilization of Prenatal, Pregnancy, and Postpartum Services

Maternal Health Utilization Report

- Use this report to track phases of your beneficiaries' utilization of maternal health services.
- Utilization dashboards for each phase of pregnancy.
- Drill-through to Beneficiary and Claim-level details.

Reference Groups

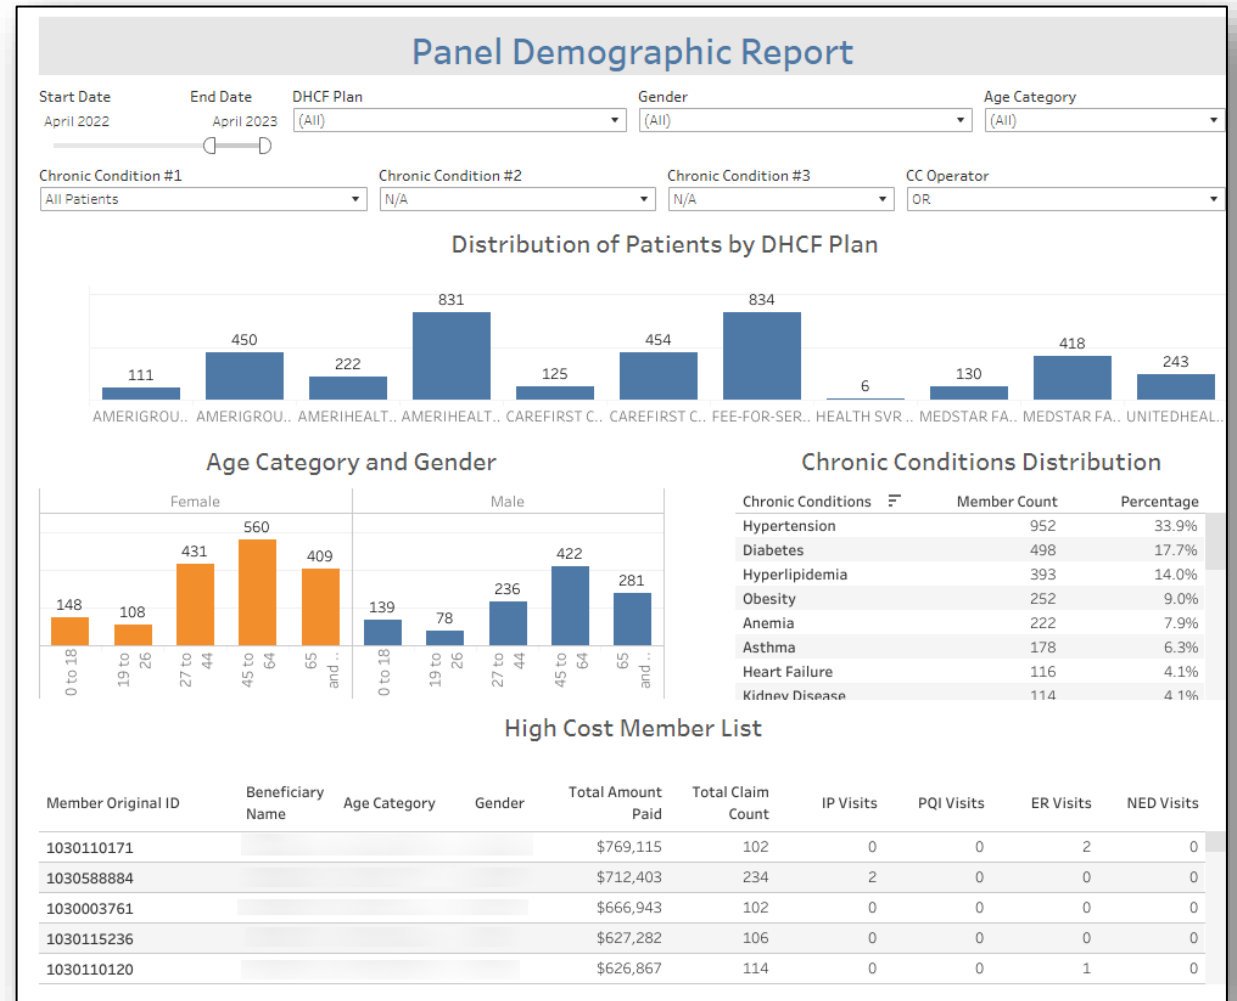

- All DC Medicaid
- Peer Group – aggregation of all other FQHCs

View high-level distribution of patients and track overall utilization

Panel Demographic Report

- Use this report to view high-level demographics and track overall utilization of the health system by beneficiaries in a panel.
- Features include:
 - Distribution of Patients by DHCF Plan, Age Category and Gender, and Chronic Conditions
 - High-Cost Member List
 - Top 10 Diagnosis
 - High Comorbidity Member List
- Drill-through to Beneficiary and Claim-level details.

Track Pediatric Dental Service Utilization and Performance

Pediatric Health Reports

- Use the first set of Pediatric Health Reports released to track utilization, per the DC Medicaid HealthCheck Dental Periodicity Schedule.
- Individual Measure dashboards on selection.
- Drill-through to Beneficiary and Claim-level details.

Reference Groups

- All DC Medicaid
- Peer Group – aggregation of all other FQHCs

HealthCheck Dashboard for Recommended Dental Procedures

The HealthCheck Dashboard for Recommended Dental Procedures dashboard allows you to view the recommended dental procedures and their performance. Click each procedure group to access the procedure-specific dashboard. Click on the performance score to view the beneficiary and claim-level details. Procedure groups are based on the DC Medicaid HealthCheck Dental Periodicity Schedule that can be found here: https://www.dchealthcheck.net/documents/DC_Medicaid_HealthCheck_DENTAL_Periodicity-10-20.pdf

Measure Year: 2023 Reference Group: All DC Medicaid

Red colored text means that the performance score is below the Reference Group's for that measure.

	6-11 months	12-23 months	2-5 years	6-11 years	12+ years
Number of Beneficiaries	176	725	3,451	6,369	12,345
Avg.No.of Services Received	0.00	0.16	0.82	1.02	1.23
Caries-Risk Assessment	0.00%	0.83%	5.74%	6.37%	7.12%

Identify and understand your patients' social needs

Social Determinants of Health reports

- The Social Determinants of Health reports provide insights into the prevalence and distribution of social needs, allowing stakeholders to develop targeted interventions, policies, and programs to address these needs and improve health outcomes
- Drill-through to Social Needs, Beneficiary and Claim-level details.

Reference Groups

- All DC Medicaid
- Peer Group – aggregation of all other FQHCs

Identify and monitor Medicaid redetermination date for your patient population to avoid gaps in coverage

DC Medicaid Redetermination Report

- FQHC-based users can access the DC Medicaid Redetermination Report to identify beneficiaries with upcoming redeterminations.
- Filter your patient population by days left for redetermination, current payer, or DHCF program.

The screenshot displays the 'DC Medicaid Redetermination Report' interface. At the top, there are three filter dropdown menus: 'Days Left for Redetermination' (set to 'All'), 'Current Payer Name' (set to 'All'), and 'DHCF Program' (set to 'All'). Below these filters is a table with the following columns: Medicaid ID, Last Name, First Name, DOB, Gender, Street, State, Zip Code, Current Payer Name, DHCF Program, Days to Redetermination, and Medicaid Redetermination Date. The table contains 10 rows of data, with the 'Days to Redetermination' column highlighted in a color gradient from light pink to light blue. The 'Medicaid Redetermination Date' column is highlighted in a solid light blue.

Medicaid ID	Last Name	First Name	DOB	Gender	Street	State	Zip Code	Current Payer Name	DHCF Program	Days to Redetermination	Medicaid Redetermination Date
										24	7/1/2023
										24	7/1/2023
										24	7/1/2023
										55	8/1/2023
										55	8/1/2023
										86	9/1/2023
										116	10/1/2023
										116	10/1/2023
										116	10/1/2023

Policy Guidance Development and Update on Interagency Data Use Workgroup

Deniz Soyer

Division Director

DHCF

Allocated Time: 4:15 – 4:30 PM (15 mins.)

Why do we need HIE Rule policy guidance?

- The HIE final rule includes several references to policy guidance for registered and designated entities.
- There are some references to guidance that will require changes to the rule – such as standards that change infrequently.
- Policy guidance is intended to refer to items introduced in the HIE rule and elaborate on the content in the rule to be clearer about expectations

How did we develop policy guidance?

- DHCF reviewed areas of the HIE final rule that need clarification through policy guidance
- DHCF also reviewed current agreements in place with the HIE and existing procedures that both registered HIE entities have to inform policy guidance
 - Non-burdensome to entities
 - Alignment with existing agreements and avoid duplication
- DHCF receives and reviews feedback from this HIE Policy Board's Policy Subcommittee to inform its development of policy guidance

Areas of Policy Guidance Applicable to Registered and Designated HIEs that will be issued Fall 2023

Identifying Authorized Users

8703.5, 8703.6, 8703.7

Minimum requirements to ensure that only an authorized user has access, uses, or discloses PHI from the HIE

Notice Regarding Cease of Operations

8702.2(f)

Details on what should be submitted to DHCF – including transition activities in the event of cease of operations, destruction of PHI, etc.

Audit Requirements

8704.1(b), 8704.1(f), 8705.4

National standards for audits. Providing a time frame for any remedial actions that participating organizations should take in the event of an unusual finding.

Policy guidance will be issued through transmittals, posted on the DHCF website, and disseminated to HIE entities

DC HIE Rule updates – drafting beginning this summer

- Anticipated updates will include:
 - Extension of designation term to 6 years
 - Inclusion of language to establish the HIE as a health data utility
 - Formal definition of the term '*Health Data Utility*' and '*Participating Organization*'
 - Aligning language on Primary Uses of Data with HIPAA (i.e. population health)
- DHCF will engage Board subcommittees to provide feedback on components of updates to the rule, as needed (i.e. HIE-related terms/definitions, operational/governance requirements)

DC HIE Interagency Data Use Workgroup

- In January 2023, Division of Digital Health established a new centralized process to receive, triage, and implement use cases that request data maintained by the DC HIE.
- The ***DC HIE Interagency Data Use Workgroup*** was created to review submitted use cases to streamline the review of all use cases received.
- The process includes submission of a standardized [Smartsheet](#) form with use case details, a presentation by the requesting party, an analysis of technical and policy implications that impact the implementation of the use case.

Health Impacts due to Air Quality Use Case

Air Quality Health Impacts

Use Case Received: March 22, 2023; **Workgroup Review:** May 8, 2023

Submitted by: Joseph Jakuta and Kayla Baum, Air Quality Planning Branch, DOEE

Use Case Description: The Air Quality Division (AQD) at DOEE is seeking deidentified patient data to analyze health impact disparities caused by or related to poor air quality in order to inform policy, program, and regulatory direction. This use case plans to use HIE data, in conjunction with DOEE data sets, to discover which census tracts and/or demographics have contextually high rates of poor air quality related health outcomes. Findings will be used to adjust permitting requirements, implement additional air monitoring in census tracts, or develop regulations.

Workgroup Decision: Use Case is Denied. Disclosure of requested data does not fit within one of the Primary Uses listed within Section 8703.2 of the DC HIE Rule. There are no reporting requirements for these data elements at the time of use case review. Workgroup members expressed support for the goal of the use case and affirmed that it may aid in District efforts to address the deleterious impacts of poor air quality.

Policy Solutions for enabling this use case:

- Revisiting current District regulation and examining other states' regulation/rulemaking activities
- Revisiting DC HIE Rule and the Development of a Secondary Use Policy

Cancer Registry Demographic Data

Cancer Registry Demographic Data

Use Case Received: July 6, 2023; **Workgroup Review:** July 10, 2023

Submitted by: Eva Reid and Alfreda Woods, Office of the Director and Community Health Administration, DC Health

Use Case Description: DC Health is requesting race and ethnicity data for any encounters related to persons diagnosed with or treated for benign tumors of the brain or central nervous system, or any malignant cancers. DC Health has a high volume of missing information related to race and ethnicity. Accurate recording of race/ethnicity data in registries is crucial for monitoring cancer trends and addressing cancer disparities among cancer survivors. These data elements are included in DC Municipal Regulation Rule 22-B215 – Monitoring and Reporting the Occurrence of Cancer.

Workgroup Decision: Use Case is Approved. Disclosure of requested data disclosure of the data is required under Rule 22-B215.

Next Steps:

- Review by CRISP Clinical Committee at its August meeting
- Coordination with DC Health and CRISP to develop, implement, and maintain the use case.

Have an idea for a Use Case? Please reach out!

- All requestors from DC Government Partner Agencies will be required to complete this form for new uses of the DC HIE: [Smartsheet Link](#) and provide essential information the proposed use case:
 - Use case name, description and goal
 - Data elements requested
 - How the data will be used and who are the end users
 - Time period for request (one-time or ongoing)
 - Funding available, if any
- Requester is notified of receipt and invited to present the use case at an upcoming DC HIE Interagency Data Use Case Workgroup.
- Meets 2nd Monday of the month – next meeting: **Monday, August 14!**
- Any staff from DC Health, DBH, or other sister agency are welcome to attend
- Use cases **must** be submitted no later than 5 business days prior to the meeting date

Digital Health Technical Assistance (TA) Program

Eduarda Koch
Project Manager
DHCF

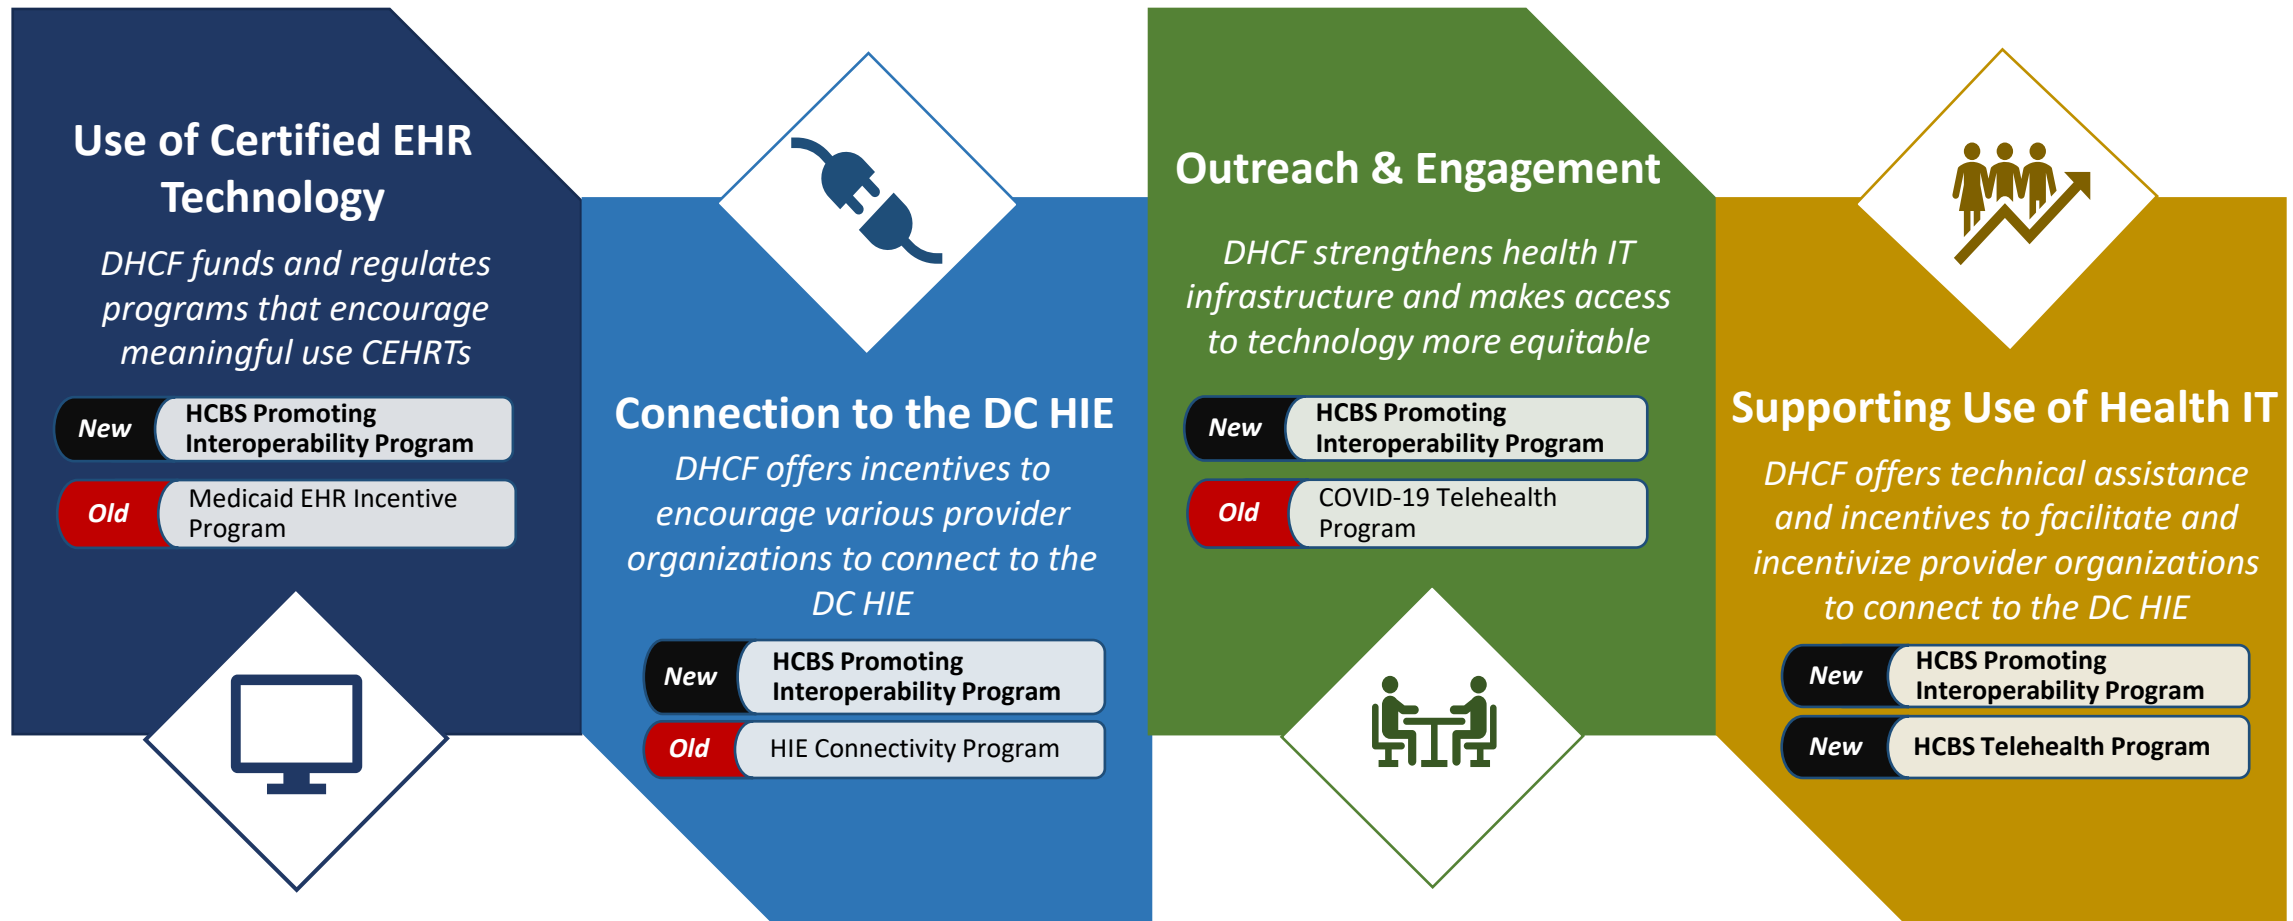

Maava Khan
Program Analyst
DHCF

Allocated Time: 4:25 – 4:35 PM (10 mins.)

Today's Agenda

- Digital Health TA Program Overview
- Meet the HCBS Digital Health TA Team
- HCBS PI Program Incentive Updates
- HCBS PI Program Participation by Cohort
- Announcement: HCBS PI Program Changes!
- What to Expect Next?
- Questions?

Digital Health Outreach and Technical Assistance

Digital Health Outreach and TA programs support a more integrated and accessible person-centered system in the District

HCBS Digital Health TA Team

eHealthDC is a program operated by DCPCA that provides free technical assistance for DC providers to adopt digital health technologies and achieve HIE Connectivity in the District.

Led by DCPCA, the eHealthDC project partners for this grant are:
Clinovations Government + Health,
Zane Networks,
CRISP DC, and Enlightened.

ZANE NETWORKS

PI TA Lead for ASARS, DDS,
LTSS & HSS providers

clinovations
GOVERNMENT + HEALTH

PI TA Lead for MHRS
providers

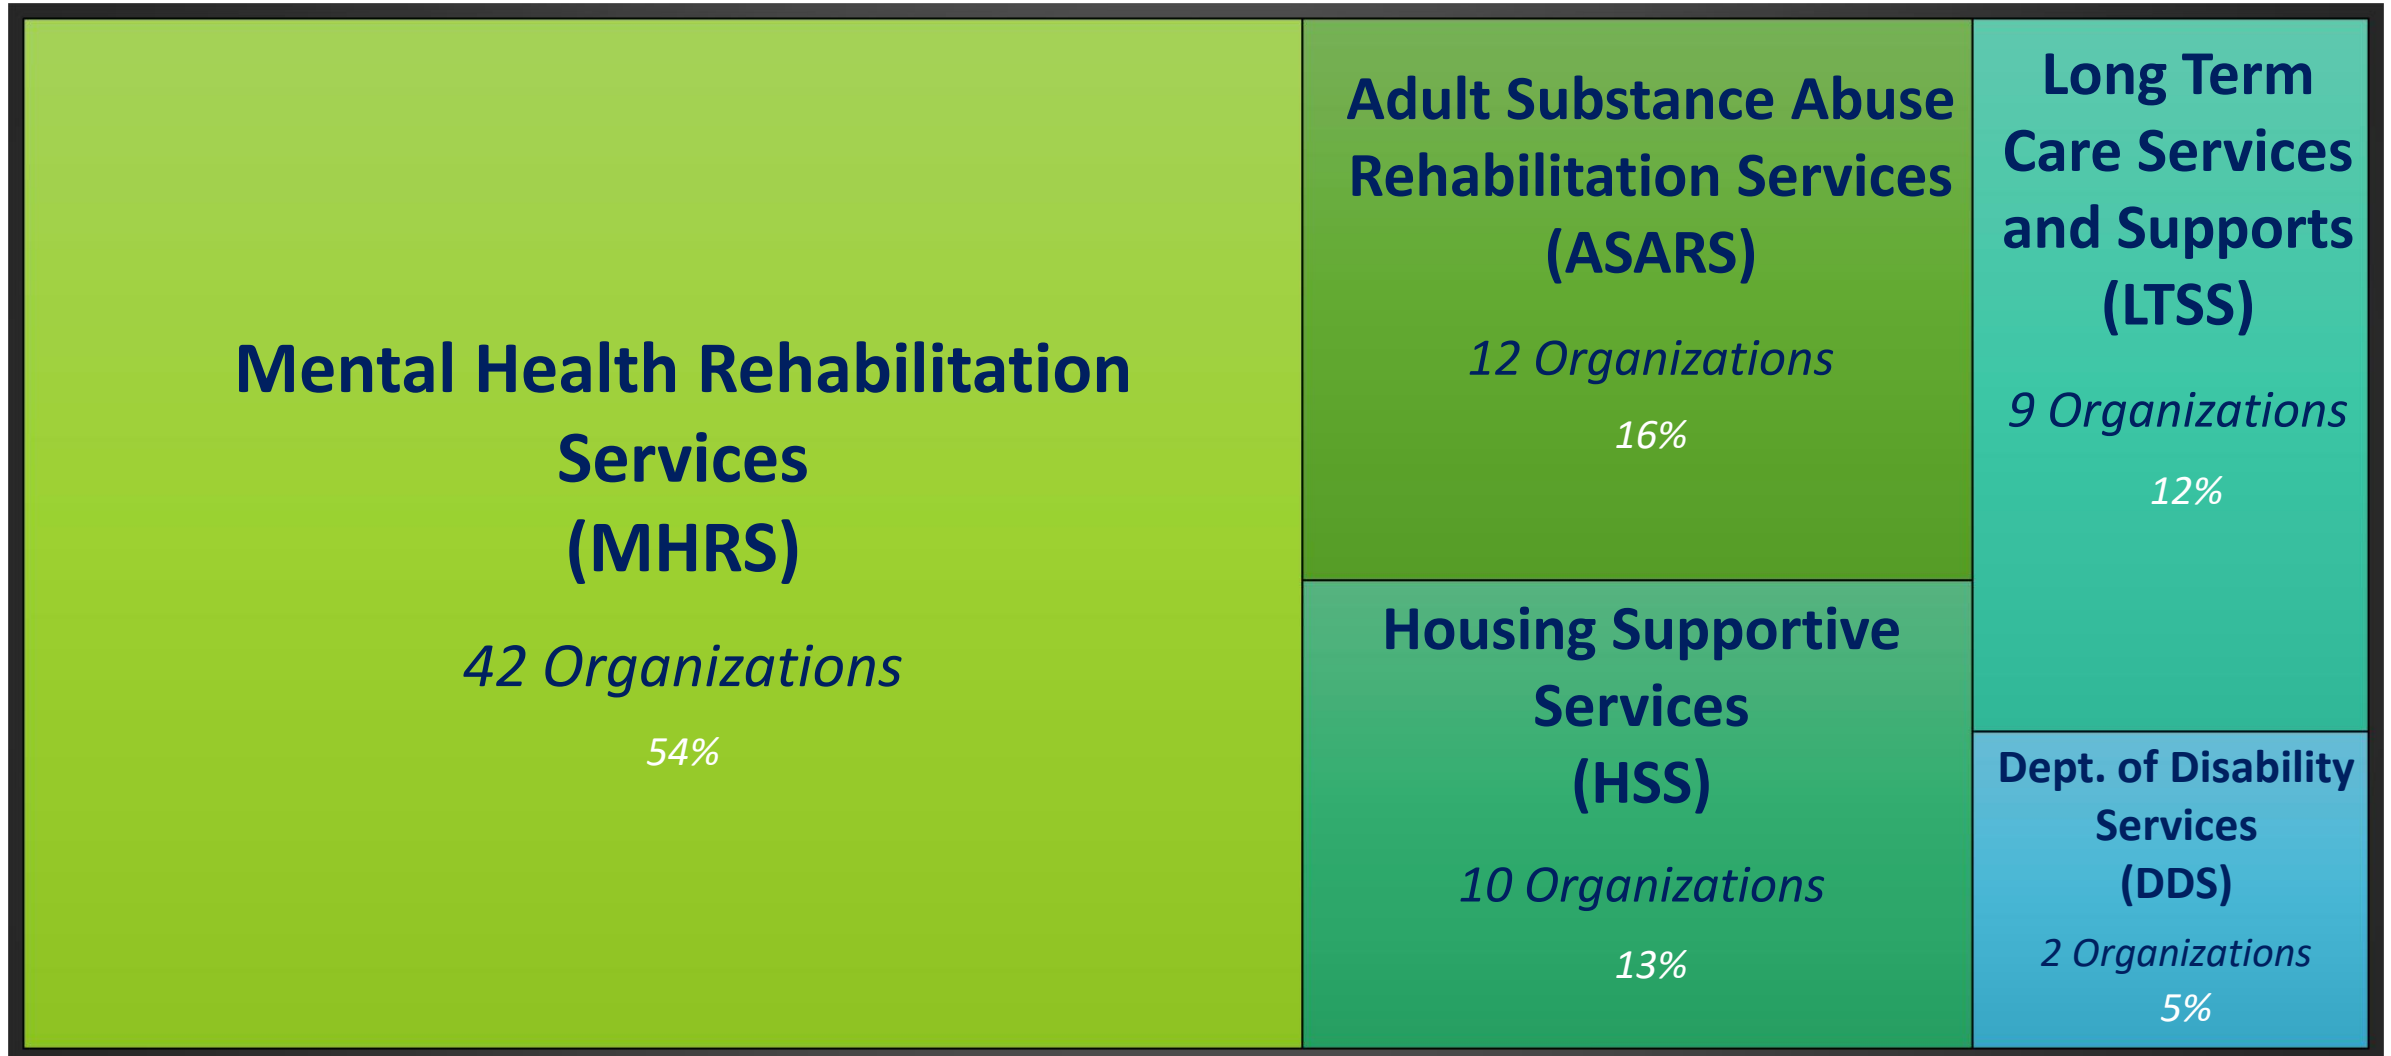

PI TA Lead for HIE
Integration

enlightened:
BEYOND EXPECTATION.

TA Lead for Telehealth
Services

HCBS PI Program Participation Based on Provider Cohort

HCBS PI Program Incentive Updates as of 07/11/23

Program Track	Incentive Amount	# of Incentives Received by HCBS POs*
Track 1: Implement a New EHR	Track 1 Total: \$58,000	Track 1 Unique POs attesting: 36
Milestone 1.1: Participation Agreement	Milestone 1.1: \$2,000	36
Milestone 1.2: Sign scope of services and work plan	Milestone 1.2: \$2,000	33
Milestone 1.3: New technology purchase	Milestone 1.3: \$22,500	25
Milestone 1.4: Complete technology go-live and training	Milestone 1.4: \$21,500	-
Milestone 1.5: Connect to CRISP and send encounter data to DC HIE	Milestone 1.5: \$5,000	-
Milestone 1.6: Connect to CRISP and send clinical notes to DC HIE	Milestone 1.6: \$5,000	-
Track 1 Total Distributed Incentives		\$700,500
Track 2: Upgrade an Existing EHR	Track 2 Total: \$32,000	Track 2 Unique POs attesting: 11
Milestone 2.1: Participation Agreement	Milestone 2.1: \$2,000	11
Milestone 2.2: Sign scope of services and work plan	Milestone 2.2: \$2,000	11
Milestone 2.3: Technology upgrade purchase	Milestone 2.3: \$8,000	4
Milestone 2.4: Complete technology go-live and training	Milestone 2.4: \$10,000	-
Milestone 2.5: Connect to CRISP and send encounter data to DC HIE	Milestone 2.5: \$5,000	-
Milestone 2.6: Connect to CRISP and send clinical notes to DC HIE	Milestone 2.6: \$5,000	-
Track 2 Total Distributed Incentives		\$76,000
Track 3: Optimize Existing EHR or Case Management System	Track 3 Total: \$25,000	Track 3 Unique POs attesting: 28
Milestone 3.1: Participation Agreement	Milestone 3.1: \$2,000	28
Milestone 3.2: Sign scope of services and work plan	Milestone 3.2: \$2,000	21
Milestone 3.3: Integration technology purchase	Milestone 3.3: \$3,000	10
Milestone 3.4: Complete Integration technology go-live and training	Milestone 3.4: \$8,000	-
Milestone 3.5: Connect to CRISP and send encounter data to DC HIE	Milestone 3.5: \$5,000	-
Milestone 3.6: Connect to CRISP and send clinical notes to DC HIE	Milestone 3.6: \$5,000	-
Track 3 Total Distributed Incentives		\$128,000
		Total \$ distributed in incentives to date: \$904,500
		Total # of Unique Provider Orgs participating to date: 75

PO* = Provider Organization

HCBS PI PROGRAM

>>> ANNOUNCEMENT <<<

**You spoke.
We listened.
We acted.**

Upon careful consideration, DHCF has **approved** two changes to the HCBS Promoting Interoperability (HCBS PI) Program incentive payment structure:

- 1) Increase to the incentive dollar amount for Milestone 4, Tracks 1 & 2; and
- 2) Creation of a new incentive dollar amount for Milestone 4, Track 3

***Please note, Milestone 4 = Technology Go-live/Training**

Track	Previous M4 Amount	Previous Total Incentive Amount	NEWLY APPROVED M4 Amount	NEWLY APPROVED Total Incentive Amounts
Track 1	\$7,500	\$44,000	\$21,500	\$58,000
Track 2	\$4,000	\$26,000	\$10,000	\$32,000
Track 3	\$0	\$17,000	\$8,000	\$25,000

For more information:

dc.slr@dc.gov OR contact@e-healthdc.org

You Spoke, We Listened – Changes to the HCBS PI Program!

- These changes will help support organizations with EHR implementation, training, and enhancements, while also alleviating HIE connectivity costs.

Implementing or Upgrading EHR
Track 1 and 2

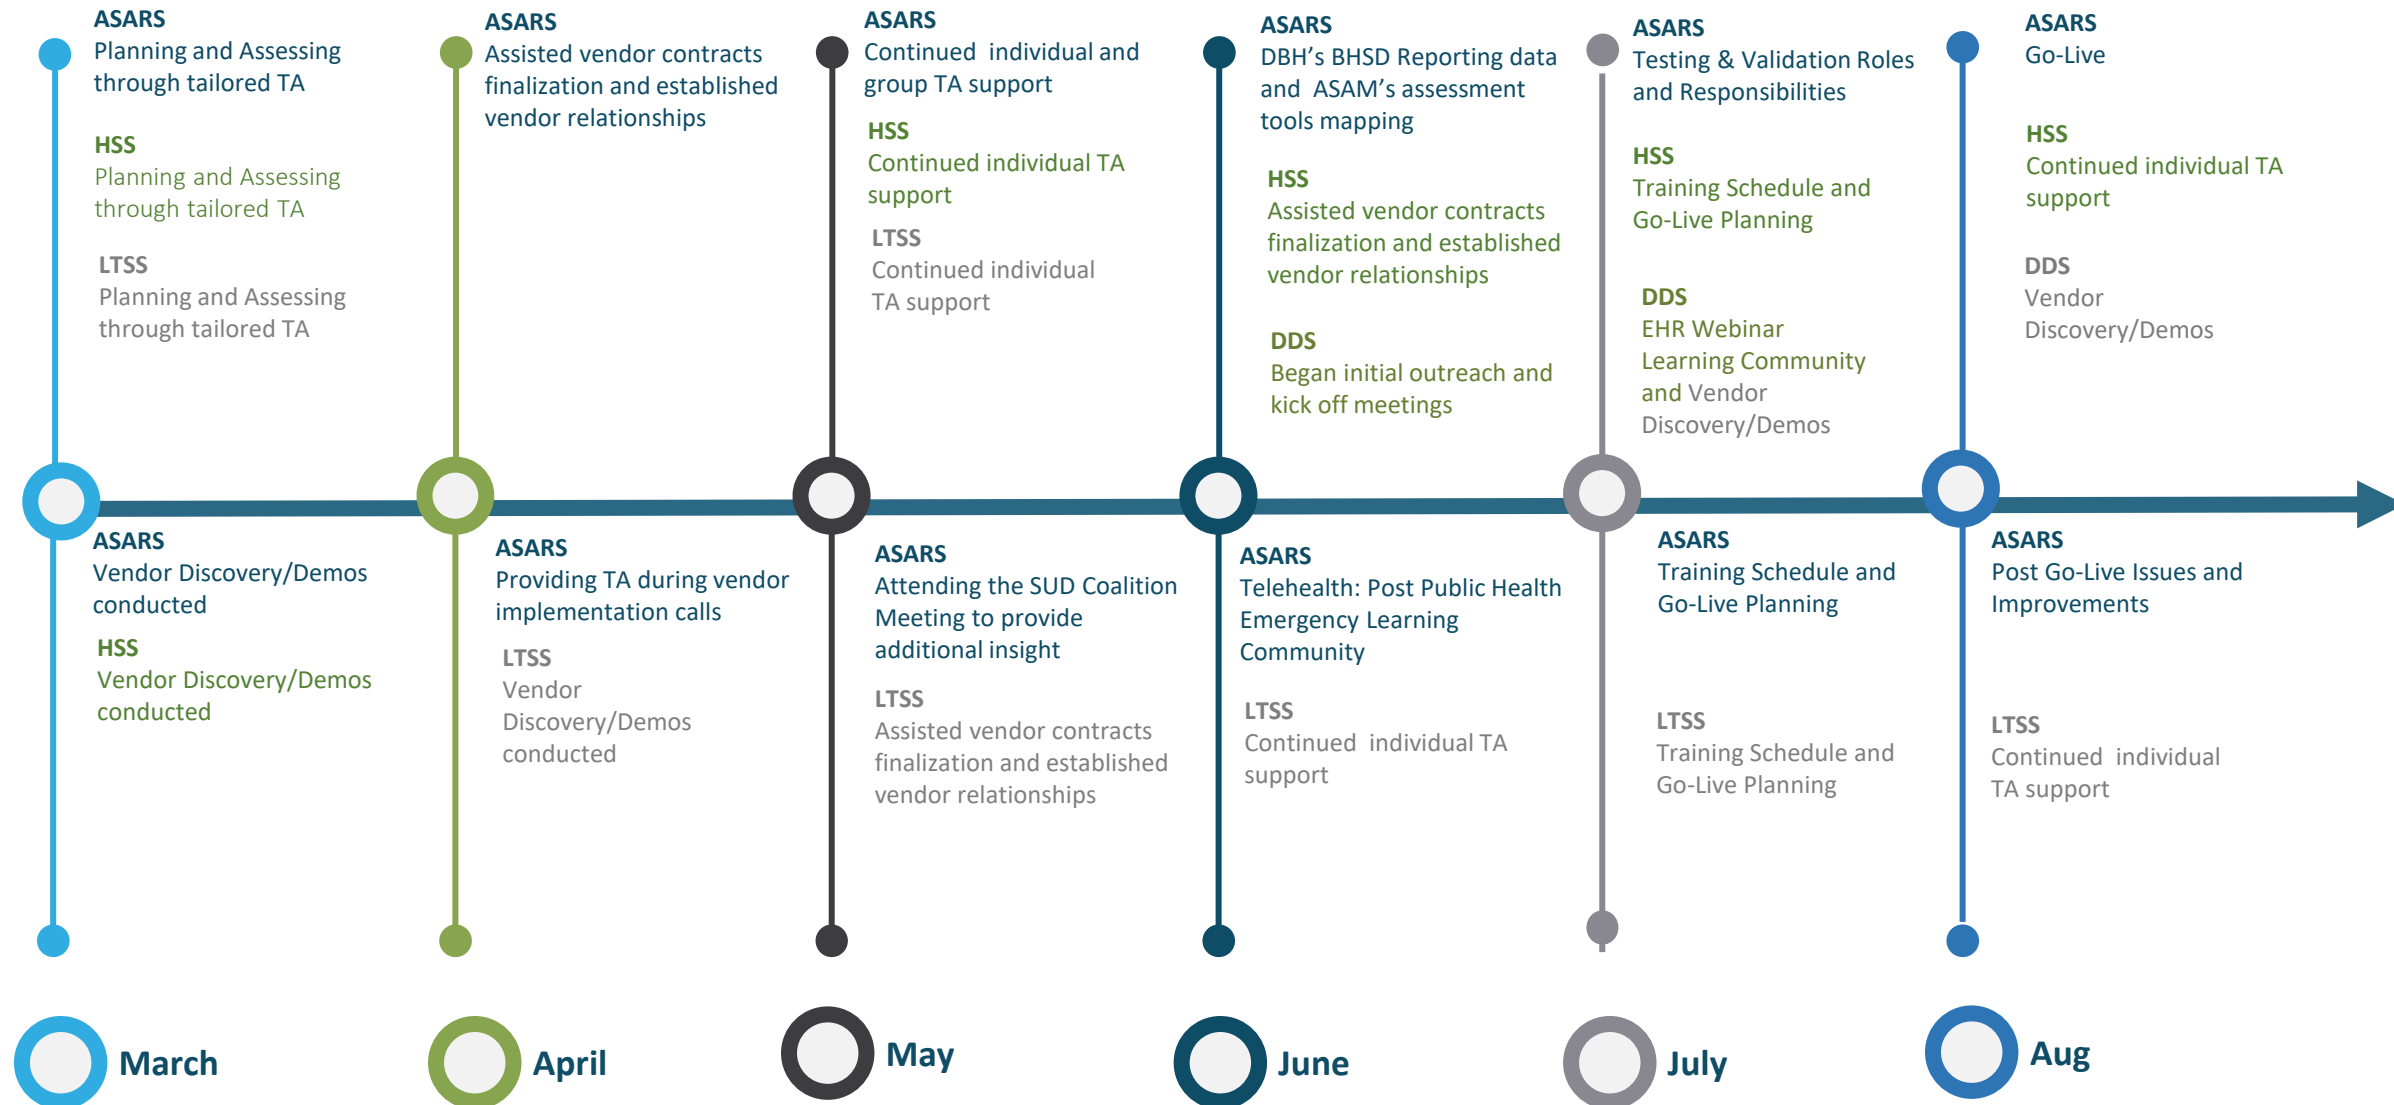

INCREASE in amounts for Milestone 4

Optimizing existing system
Track 3

NEW Milestone 4 with incentive amount

- Changes will be shared with a flyer!

Learning Communities/Tailored TA for Organizations Providing ASARS, HSS, LTSS & DDS Services

What to expect next?

Continued Collaboration with Agency Partners

- **CEHRT system upgrades** - support DBH Certified Providers with by Oct 1st deadline
- **Workflow and data migration support** - enhance DBH service authorization, referral and reporting requirements
- **Regular touchpoints w/ DBH, DHCF/LTCA, DHS, and DDS** - refine provider outreach approaches and TA delivery requirements

Continued Delivery of Digital Health TA & Telehealth Support

- **Tailored TA support to meet provider attestation requirements** - support provider cohorts to successfully meet the Milestones 1 through 6 of their assigned HCBS PI Program tracks
- **Telehealth policy, billing, and tools guidance and technical assistance** - facilitate HCBS provider delivery of telehealth services post COVID-19 Public Health Emergency

Continued Education & Provider Engagement

- **Learning collaboratives and educational sessions** – tailored to each provider cohort’s technology needs and requirements
- **Bimonthly HCBS Stakeholder Advisory Committee Meetings** – solicit HCBS provider and DC regulatory agency feedback
