

Bulletin 90-1

Workers' compensation — classification code

March 20, 1990

It has been brought to our attention that independent truckers hauling logs are being assigned to code 2702 — logging or lumbering. The correct classification for the independent trucker, hauling logs is code 7219 — trucking.

Effective immediately, all policies issued to independent truckers hauling logs using code 2702 must be corrected. All corrective action should be applied retroactively to the policy inception date.
