

Bulletin 92-3

Medicare supplement outline of coverage requirement

August 7, 1992

This bulletin is being issued as a clarification of the medicare supplement rules which were promulgated effective July 17, 1992. These rules are found in ARSD Chapter 20:06:13. The outline of coverage, as provided in Appendix D of these rules, must be adhered to both in style and content. The type size used for the outline of coverage must be in 12 point print or larger.

Also in the outline of coverage, the word "generally" must be added to the Part B percentages under the "medicare pays" column for each of the 10 plans. The relevant portions would then read under medicare pays the following: "generally 80%."

If there are any questions pertaining to compliance with this Bulletin or the new medicare supplement rules, you are encouraged to contact the Division of Insurance.

The provisions of this Bulletin are effective immediately.
