Notes:

1. SY15-16 program capacity is defined as the maximum number of students who can be served at the facility given the school's current facility and existing educational programs, class size, and staffing. This information was self-reported by schools through DC PCSB's SY15-16 Public Charter School Facility Survey.
2. Program capacities that were not available through the survey are indicated by gray shading. DC PCSB imputed these numbers based on the average ratio of SY14-15 audited enrollment to program capacity for available facilities.
3. Utilization rates are calculated by dividing the SY15-16 audited enrollment by the SY15-16 program capacity for each facility.
4. SY16-17 enrollment projections were used to create the final FY17 budget.
