BACKGROUND

The American Academy of Pediatrics is a professional membership organization of 67,000 pediatricians committed to the optimal physical, mental, and social health and well-being for all infants, children, adolescents, and young adults.

Founded in 1930, the AAP advocates for the health and wellbeing of all children and works with government, communities, and other national organizations to shape many child health and safety issues. The AAP provides professional education and resources to member pediatricians and provides patient education and public information campaigns.

STATEMENT OF PURPOSE

Funded by the Doris Duke Foundation, the Establishing a Race-Conscious Approach to Clinical Guidance in Pediatric Care initiative will address how to approach the elimination of race-based medicine in clinical algorithms, inform future clinical guideline development within the AAP and provide a tested approach for other organizations seeking to rectify the problematic use of race in clinical guidelines.

To accomplish this aim, the project will focus on the following activities:

1. Identify and conduct a rapid revision of three race-corrected or race-normed clinical algorithms in AAP policies and guidelines and develop accompanying guidance.
2. Test the feasibility and effectiveness of implementing an alternative algorithm in a high-volume acute care clinical setting.

Through these activities, the AAP strives to reduce racism, bias, discrimination, and inequities in pediatric medical care and ultimately create systems that provide affirming, anti-racist care for all children.

PRODUCT SPECIFICATIONS OR SCOPE OF WORK

The Methodologist Consultant will work with AAP and member experts to standardize AAP clinical guidance with a proactive equity-based approach. Specific duties will include:

1. Work with AAP staff and subject matter experts via regularly scheduled calls and email communications to provide progress updates, share findings and answer questions regarding strategies and limitations that are free from bias.
2. Collaborate with the Rapid Revision Team (member experts) to determine the selection criteria to identify and evaluate the use of race and ethnicity in the three AAP policies that will be prioritized for revision
3. Perform a structured literature review of the clinical content related to the three AAP policies prioritized for revision (using GRADE)
4. Develop a framework to systematically review the use of race and ethnicity in all AAP policies and clinical practice guidelines.
5. Engage stakeholders, including authoring bodies, internal peer reviewers and governance through qualitative platforms (e.g., focus groups, key informant interviews) to begin to socialize a systematic, organizational approach going forward.
6. Prepare a report with assessment and summary of findings
