- CATEGORY CABLE
- HDMI
- USB
- LOGITECH STRONG USB

### FEATURES/BENEFITS

- A Parlé microphone's four 90' zones can simultaneously identify and steer towards talkers, allowing participants to move freely around a space.
- Biamp's Certified Room Bundles include all the audio equipment and cabling needed to deliver extraordinary meetings every single time. Supporting this are tools and software to minimize deployment time and enhance consistency of tuning.
- This equipment combination from Logitech and Biamp is fully tested and approved by both parties, guaranteeing extraordinary meeting experiences no matter your choice of UC platform.
- Biamp's digital signal processors are trusted around the world to provide the best possible audio processing platform. The TesiraFORTÉ AVB VT4 packs all the power needed to handle any acoustic challenge.
