

Purchasing Support for K-12 Schools and Implementing Alyssa's Law

Nextivity can help you acquire funds, structure payments, and identify purchasing vehicles to shorten timelines and ease the paperwork burden.

Government Procurement Program

Through our extensive partner network, Nextivity cellular coverage, public safety, and private networking solutions and services can be acquired through a number of procurement programs, without an RFP:

National Association of State
Procurement Officials

Texas Department of
Information Resources

Omnia Partners

National Purchasing Partners
(NPP)

Network-as-a-Service (NaaS) OpEx Offering

Converting the capital expense of wireless connectivity into a monthly operating expense offers several advantages for schools:

- Eliminating the need for capital funding requests
- Providing flexibility / allowing school or district to preserve your cash and not have wait to improve safety
- Moving wireless network ownership to a third party, which reduces dependence and the resource drain on internal IT team

The Nextivity OpEx offer includes:

- Ongoing monitoring, maintenance, and servicing of the system
- Qualified break/fix service
- Shifting of overall network responsibility to a third party

NaaS can be arranged for any project of almost any size, type, or location. There is no minimum cost threshold – just what makes sense for your school or district.
