1 CRIMINAL JUSTICE COORDINATING COUNCIL

Mission: The mission of the Criminal Justice Coordinating Council (CJCC) is to serve as the forum for identifying issues and their solutions, proposing actions, and facilitating cooperation that will improve public safety and the criminal and juvenile justice system of the District of Columbia for its residents, visitors, victims and justice-involved individuals.

Services: Provide a forum for effective collaboration and problem solving among criminal and juvenile justice agencies. Identify, develop and coordinate innovative interagency solutions to address District of Columbia public safety challenges. Research and analyze critical issues identified by the criminal and juvenile justice system. Facilitate and provide long-term performance monitoring of collaborative solutions to public safety and criminal justice challenges.

2 2022 ACCOMPLISHMENTS

Accomplishment	Impact on Agency	Impact on Residents
<p>Completion of the Gun Violence Problem Analysis and the Gun Violence Reduction Strategic Plan, which identified the key drivers of gun violence in the District, identified individuals at highest risk of engaging in gun violence, and provided recommendations for how the District can reduce gun violence.</p>	<p>Enhanced CJCC’s knowledge base and our ability to provide greater support to partner agencies with respect to our Combating Violent Crime priority area.</p>	<p>Informed District agencies and residents about evidence-based, data-driven and community-informed approaches for reducing gun violence and helps focus their efforts on the people and places with the greatest need.</p>
<p>In collaboration with DC Health, implementation of the Firearm Injury Surveillance Through Emergency Rooms (FASTER) grant, which was funded by the CDC</p>	<p>Increased CJCC and our partner agency’s knowledge about nonfatal firearm injuries (many that had not been reported to law enforcement); enabled real-time tracking of trends, such as increase in juvenile firearm victims; and informed staffing decisions for Hospital-Based Violence Interrupters.</p>	<p>During FY23 and FY24, DC Health and CJCC will collaborate to develop a public-facing dashboard to reflect firearm injury data reported by emergency rooms.</p>
<p>Completion of Penetration Testing for JUSTIS, which is the District’s Criminal Justice Information System, and one-stop for operational information at each stage of the criminal justice system.</p>	<p>Helped validate that JUSTIS is a secure system and enabled us to identify and mitigate minor security vulnerabilities to further enhance information security.</p>	<p>Helps to ensure that personal identifiable information about the District’s justice-involved individuals is well-protected and secured within JUSTIS.</p>

3 2022 OBJECTIVES

Provide a reliable mechanism for electronic information sharing among local and federal criminal justice partners to enhance public safety in the District of Columbia.	5	1
Facilitate collaboration among criminal and juvenile justice partners for efforts that require participation and input from multiple agencies.	2	2
Conduct research and analysis to enhance data-driven and evidence-based decision-making among criminal and juvenile justice partners.	1	1
Provide training and technical assistance to assist partners in making informed decisions when addressing criminal and juvenile justice issues.	2	3

4 2022 OPERATIONS

Operation Title	Operation Description	Type of Operation
Provide a reliable mechanism for electronic information sharing among local and federal criminal justice partners to enhance public safety in the District of Columbia.		
JUSTIS facilitates electronic information sharing among local and federal criminal justice partners.	CJCC operates and maintains JUSTIS, which is the Integrated Justice Information System (IJIS) for the District of Columbia. JUSTIS is available 24 hours a day, 7 days a week, and enables authorized agencies to contribute criminal justice information through an automated data feed. The information is made available to authorized viewing agencies through an information portal, as well as, through a system-to-system exchange.	Daily Service
Facilitate collaboration among criminal and juvenile justice partners for efforts that require participation and input from multiple agencies.		
Databases to Support Committees and Workgroups	CJCC maintains two databases that help support the work of several of the CJCC committees and workgroups. The Resource Locator is a searchable, online database of more than 750 service providers in the Washington, D.C. metropolitan area, that are equipped to assist returning citizens and others with housing, substance abuse, mental health, social services, medical, and legal needs, among others. The New Psychoactive Substances (NPS) Database provides a consolidated list of all chemicals that are currently being used to manufacture NPS, including formal and common names, as well as classification information, where available. Use of the database is restricted to local, regional and federal law enforcement partners.	Daily Service
Interagency Committees and Workgroups	CJCC facilitates and supports the efforts of multiple committees and workgroups, which include representatives from public safety and justice, education and health and human services agencies in the District, as well as federal criminal justice agencies. The committees and workgroups convene to address a range of system-wide criminal justice and juvenile justice issues with respect to Information Technology, Research and Analysis, Combating Violent Crime, Juvenile Justice, Substance Abuse and Mental Health Services, Adult Reentry, and Grants Planning.	Daily Service
Conduct research and analysis to enhance data-driven and evidence-based decision-making among criminal and juvenile justice partners.		
Research and Analysis to Support CJCC Priority Areas	CJCC's Statistical Analysis Center (SAC) conducts research and analysis to help inform interagency efforts across several of the CJCC priority areas (combating violent crime, substance abuse and mental health, juvenile justice, and adult reentry).	Key Project

Operation Title	Operation Description	Type of Operation
Provide training and technical assistance to assist partners in making informed decisions when addressing criminal and juvenile justice issues.		
Public Meetings	CJCC hosts Public Meetings, where community members have the opportunity to engage with partners on relevant criminal and juvenile justice issues that affect District residents.	Key Project
Training and Technical Assistance	CJCC hosts a number of training and technical assistance events to equip District and federal partners with tools for addressing timely and relevant criminal justice and juvenile justice issues. The training events include the annual Criminal Justice Summit, annual Information Sharing Forum, Juvenile Justice Technical Assistance Workshops, Bridging Research to Practice series, and Grants Planning workshops.	Daily Service
Juvenile Justice Compliance Monitoring	CJCC's Juvenile Justice Compliance Monitor ensures the District's compliance with four core requirements of the Juvenile Justice and Delinquency Prevention Act (JJDP): (1) deinstitutionalization of status offenders; (2) separation of juveniles from adults in secure facilities; (3) removal of juveniles from adult jails and lockups; and (4) reduction of disproportionate minority contact within the juvenile justice system. Noncompliance would result in a reduction of grant funding from the Office of Juvenile Justice and Delinquency Prevention (OJJDP). The Compliance Monitor receives and reviews annual admissions reports from all DC juvenile correctional and detention facilities and conducts site visits at each of these facilities. The Compliance Monitor investigates presumptive violations and recommends corrective actions, as needed.	Daily Service

5 2022 STRATEGIC INITIATIVES

In FY 2022, Criminal Justice Coordinating Council had 4 Strategic Initiatives and completed 50%.

Title	Description	Completion to Date	Update	Explanation for Incomplete Initiative
Establishing Interfaces between JUSTIS and New Agency Records Management Systems	JUSTIS facilitates electronic information sharing among local and federal criminal justice partners by ingesting data directly from agencies' records management systems (RMS) and displaying that data in the information portal or allowing direct sharing between agency RMSs through the system-to-system exchange. During FY21 and FY22, the Metropolitan Police Department (MPD), Department of Corrections (DOC) and Pretrial Services Agency (PSA) are slated to launch new records management systems. CJCC will establish new interfaces between JUSTIS and each agency's system by the end of the fiscal year.	25-49%	DOC has pushed back its migration date to February 2023. DCSC continues to work with partner agencies to address concerns regarding how the migration will impact partners' data systems and business processes. DCSC will identify a new deployment date once solutions to the partners' concerns have been identified. DCSC has pushed Phase 2 to FY 2023.	Partner agencies have delayed the deployment dates for their new records management systems.
JUSTIS Strategic Plan	CJCC manages and administers the District's designated Integrated Justice Information System (IJIS), referred to as the Justice Information System (JUSTIS). JUSTIS, a web-based information portal, displays data from multiple agencies on the same screen. It has a system exchange component and an information hub that allows the exchange of data feeds among its partner agencies. JUSTIS is a critical part of CJCC's information-sharing efforts. CJCC will engage a contractor to develop a five (5) year Information Technology Strategic Plan (Plan) outlining how the agency should be strategically aligned to better meet its mission and satisfy the future needs of its partner agencies and stakeholders.	Complete	The JUSTIS Strategic Plan was completed in Q1.	

Comprehensive Plan to Reduce Gun Violence	During FY2021, the CJCC engaged the National Institute for Criminal Justice Reform (NICJR) to conduct a problem analysis of gun violence in the District of Columbia to (1) establish a common understanding of the local violence problem and (2) inform the selection and implementation of violence reduction strategies. During FY2022, the CJCC will continue to engage with NICJR to develop a Comprehensive Plan to Reduce Gun Violence that (a) summarizes the problem analysis findings; (b) leverages the problem analysis to identify the specific goals and objectives the District should seek to reduce gun violence; and (c) makes recommendations regarding how the gun violence reduction goals and objectives can be achieved	Complete	NICJR completed the proposed plan to reduce gun violence in April 2022. CJCC released the plan to the public in May 2022 and convened a public meeting where David Muhammad, Executive Director, NICJR discussed the recommendations from the proposed plan and the Mayor and Director of Gun Violence Reduction discussed the District's implementation efforts.	
Revitalization Act Analysis	On August 5, 1997, Congress enacted the National Capital and Self-Government Improvement Revitalization Act of 1997 to address the root causes of some of the long-term fiscal challenges the District was experiencing at the time. As a result of the Act's passage, the federal government assumed responsibility for certain costly services in the District, including certain criminal justice functions. CJCC has engaged a contractor to submit a written report that (1) analyzes how the changes made to the District's justice system as a result of the Act have impacted justice system operations and (2) examines the impact the systemic changes have had on victims and justice-involved persons.	75-99%	During Q4, the DC Policy Center conducted additional interviews with CJCC members to obtain perspectives on the impact of the Revitalization Act and submitted a report to the CJCC for review and comment. CJCC has provided thorough feedback for additional revisions, which the DC Policy Center will incorporate. A final version of the report is anticipated to be completed in early FY23.	Contractor was not able to obtain needed data to implement initial research plan. They adjusted their approach and the draft report, accordingly.
