

The **Race to Resilience** is a global campaign run by the COP26 Presidency and High-Level Climate Champions to rally leadership and support from cities, regions, businesses and investors to help frontline communities build resilience and adapt to the impacts of climate change. The Race to Resilience aims to catalyse action by non-state actors to build the resilience of 4 billion people from vulnerable groups and communities to climate risks.

The **Cities Race to Resilience** is one of the initiatives under the Race to Resilience campaign, focused on driving cities to join and pledge their commitment to the global fight against climate change. **The Cities Race to Resilience offers cities themselves the unique opportunity to showcase action and drive ambition, according to their own contextually relevant local landscape.**

Cities are invited to take this crucial step, be a catalyst for change, and **join the Race to Resilience today** to demonstrate your commitment towards strengthening the resilience of 4 billion people by 2030!

To join Cities Race to Resilience today:

- Open the camera app on your smartphone device.
- Hold your device over the QR Code so that it's clearly visible within your smartphone's screen.
- Your smartphone will read the code and a message will pop up "Tap here to write an email to 'racetoresilience@iclei.org'
- Tap on this message - your email app will open with a draft email with auto-populated text, which you can edit in your email app.
- Please ensure to include your relevant details before hitting 'SEND'.
- We will be in touch as soon as we receive your message.

ICLEI – Local Governments for Sustainability (ICLEI) together with partners C40 Cities, CDP, the Global Covenant of Mayors for Climate & Energy (GCoM), Making Cities Resilient 2030, Resilient Cities Network, United Cities and Local Governments (UCLG), the World Resources Institute (WRI), and the World Wide Fund for Nature (WWF) have come together to mobilize an **unprecedented coalition of cities** committed to prioritizing resilience and implementing inclusive and resilient climate action ahead of and beyond the COP26 in Glasgow.
