44%

Enhanced National Competitiveness

43%

Payment System Efficiencies

42%

Foster Innovation, New Use Cases

Especially Financial Inclusion

Financial Institutions globally see financial inclusion and greater access to credit as the largest breakthroughs to be driven by CBDCs.

85%

of payment leaders at financial institutions globally think their country will launch a digital currency in the next 4 years.

Crypto and blockchain technology are rapidly transforming the way the world moves, manages, and tokenizes value.

As we've seen with crypto, CBDCs have many use cases, with new applications of the technology being explored. Those CBDC solutions that combine sustainability, interoperability, efficiency, security, and usability will drive the most powerful impact.
