

# FOX NEWS POLL

*All results are for release after 9:00 AM/ET Sunday, January 23, 2022.*

## **Methodology**

Conducted January 16-19, 2022, this Fox News Poll includes interviews among 1,001 registered voters (RV) nationwide who were randomly selected from a national voter file and spoke with live interviewers. Landline (152) and cellphone (849) telephone numbers were selected for inclusion using a probability proportionate to size method, which means phone numbers for each state are proportional to the number of voters in each state.

Results based on the full sample have a margin of sampling error of  $\pm 3$  percentage points.

The Fox News Poll is conducted under the joint direction of Beacon Research (D) and Shaw & Company Research (R).

Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.

Fox News Polls before 2011 were conducted by Opinion Dynamics Corporation.

*Results are of registered voters, unless otherwise noted.*

*An asterisk (\*) is used for percentages of less than one-half percent.*

*A dash (-) represents a value of zero.*

*Some percentages may not add to 100% due to rounding. In the same way, percentages in "total" columns may be one point more or less than the sum of their parts due to rounding.*
