

Wiki Loves Monuments

The Polish edition of Wiki Loves Monuments was first organised in 2011, and resulted in 160000 images submitted to Wikimedia Commons. 2014 brought 45000 photographs from almost 600 uploaders.

The Polish edition of the contest was organised with official support of the Polish Ministry of Culture and National Heritage. **Photos from the contest travel all across Poland and are exhibited in libraries, cultural centres and universities, spreading the knowledge about open participatory projects** and the potential of Wikipedia and Wikimedia Commons as platforms for creativity and the sharing of knowledge.
