RE: **Unregistered Container - Starbucks Lemonade 2X Concentrate**

Attention depot operators and staff,

This notice is to remind you that **Starbucks Lemonade 2X** (1.5 Litre, tetra-brik) containers are **not registered** as beverage containers with the BCMB and not eligible for a refund. They look very similar to another Starbucks Lemonade product that is registered in the system; however, it is important to note that these are a concentrate. Please ensure that you communicate with your customers that this product is not eligible for refund since it is a concentrate and not a ready-to-serve beverage. These containers must be recycled through their local municipal recycling programs. See pictures below for reference:

If you have any questions, please direct them to info@bcmb.ab.ca.
