RE: **Loon Kombucha Non-Refillable**

Attention depot operators and staff,

Please be advised that Loon Kombucha glass beverage containers have been registered in Alberta. We are bringing these containers to your attention as they have refillable markings on the containers, however they are registered as non-refillable in Alberta. There are numerous filling stations for these containers in Ontario but NOT Alberta. This means these beverage containers carry a deposit and are eligible for refund when returned to a depot by the consumer.

Please note these containers are to be sorted as Glass, 0 - 1 litre and less.

CRIS Code 3006

If you are unable to verify a product's registration status by searching the BCMB Registrations Portal (or QMS App), please submit a QMS registrations ticket.

If you have any questions regarding the material presented in this notice, please direct them to Registration Compliance Officers via email or registrations@bcmb.ab.ca.
