● Tax parity states

These states offer a tax deduction for contributing to any 529 plan including out-of-state plans, which may be more attractive than the in-state option.²

● In-state tax benefits

These states offer potential tax breaks on contributions made only to in-state 529 plans.⁴

It pays to do your homework

Since you can invest in any state's 529 investment plan and many plans offer additional benefits, it's important to consider all of your options. To help choose the plan that's right for you, review plan features with your financial and tax advisors.⁵

All data as of 1/1/2024. Please consider such benefits before choosing the plan. **1** Ohio taxpayers may deduct the amount of contributions to a 529 account from their Ohio taxable income. Up to \$4,000 per contributor (or married couple) can be deducted per beneficiary, per year, with unlimited carry forward in future years until the full amount of the contribution has been deducted. If you are not an Ohio taxpayer, consider before investing whether your home state offers any state tax or other benefits that are only available for investments in such state's qualified tuition program. **2** Arkansas allows for a lesser deduction for contributions to an out-of-state plans than the AR plan. **3** There may be other benefits available to in state participants such as a matching grant. **4** Alabama law does not exempt distributions from a non-Alabama 529 plan and not all states allow for tax exempt distributions for all expenses qualified under federal tax law. **5** BlackRock does not provide tax, accounting or legal advice and clients are advised to consult qualified professionals for such needs.
