- to recommend standards for technical and operational procedures for the Internet in Brazil;
- to establish strategic directives related to the use and development of Internet in Brazil;
- **to promote studies and technical standards for the network and services' security in the country;**
- to coordinate the allocation of Internet addresses (IPs) and the registration of domain names using <.br>;
- to collect, organize and disseminate information on Internet services, including indicators and statistics.

CGI.br – The CERT.br Sponsor (cont.)

How CERT.br was created

- August/1996: CGI.br released the document: "Towards the Creation of a Security Coordination Center in the Brazilian Internet."
 - to be a neutral organization
 - to act as a focal point for security incidents in Brazil
 - to facilitate information sharing and incident handling
- June/1997: They created NBSO/Brazilian CERT
- May/2005: NBSO changed its name to:
 - CERT.br
Computer Emergency Response Team Brazil

CERT.br Services

- provide a focal point for reporting incidents related to Brazilian networks
- provide coordinated support in incident response;
- produce technical documents in Portuguese
- maintain statistics (incidents and spam)
- establish collaborative relationships (law enforcement, service providers, telcos, financial sector, etc)
- increase security awareness and help new CSIRTs to establish their activities
