EXHIBIT A

COMMITTER MEMBER PROCESS

Individuals who give frequent and valuable contributions to an Eclipse Technology development project, can have their status promoted to that of a "Committer" for that project, in accordance with the project's corresponding Charter. A Committer has write access to the source code repository for the associated project, and gains rights allowing them to affect the future of the project. In order for an individual to become a Committer, another Committer for the project must nominate that individual. Once an individual is nominated, the existing Committers for the project will vote using the process and rules established in the project's corresponding Charter. When a new project is started, the corresponding PMC will nominate an initial set of Committers for approval by the Executive Director (or his delegates). Becoming a Committer is a privilege that is earned by contributing and showing discipline and good judgment. It is a responsibility that should be neither given nor taken lightly.

A Committer who is not already employed by a Member company must sign the Eclipse Foundation Membership Agreement in order to attain the rights and obligations of a Committer Member.

EXHIBIT B

STRATEGIC MEMBERS

Strategic Members agree to commit the full-time equivalent of a minimum of two (2) Developers (as defined below) assigned to work Eclipse Technology development projects. Strategic Members are also encouraged (but not required) to lead an Eclipse Technology development project, or a Project Management Committee ("PMC" as defined in the Bylaws and the then current Eclipse Development Process. Strategic Members agree to maintain their minimum of two (2) Developers, assigned as above, in place and committed to the development of the Eclipse Technology at all times during which such entity is a Member, as defined in the Bylaws

"Developers" are professionals who by virtue of their skills and participation have a reasonable expectation of qualifying as Committers (as defined in Exhibit A) on the primary project to which they are assigned. Developers shall be defined to include persons with at least one of the following qualifications: (1) technical management experience; (2) software development skills; (3) systems integration skills; (4) testing skills; or (5) documentation skills.

The Eclipse Foundation is not authorized to issue managerial instructions to Developers, but is entitled to issue technical and organizational specifications to ensure compliance with the then current Eclipse Development Process. The Member has sole managerial authority over its employees.

Nothing in this Agreement shall be construed as creating an employment relationship by and between any Member and the Eclipse Foundation.
