

EIA-804 WEEKLY IMPORTS REPORT

YOUR RESPONSE IS REQUIRED BY LAW

This report is mandatory under Title 15 U.S.C. §772(b). Failure to comply may result in criminal fines, civil penalties and other sanctions as provided by Title 15 U.S.C. §797. Title 18 U.S.C. §1001 makes it a criminal offense for any person knowingly and willingly to make to any Agency or Department of the United States any false, fictitious, or fraudulent statements as to any matter within its jurisdiction.

The Form EIA-804 must be completed by Importers of Record (or Ultimate Consignees, selected by EIA, who receive Canadian imports) who import crude or petroleum products into the 50 States and the District of Columbia from foreign countries, Puerto Rico, the Virgin Islands, and other U.S. possessions. Companies are selected into the EIA weekly sample according to a procedure that assures coverage of 90 percent of each information element. **Companies selected into the sample must file a report each week even if there were zero imports.** Imports into Foreign Trade Zones located in the 50 States and the District of Columbia are considered imports into the 50 States and the District of Columbia. In the case of shipments from Puerto Rico, the Virgin Islands, and other U.S. possessions to the 50 States and the District of Columbia, the EIA-804 must be completed by the exporter named on the U.S. Department of Commerce Form 7525-V, Shipper's Export Declaration.

Canadian Imports

When crude oil or petroleum products are imported from Canada and when the importer of record is a Canadian company, the Ultimate Consignee must report imports on the EIA-804. For example, when a Canadian shipper is listed as the Importer of Record in Block 26 of the U.S. Customs and Border Protection CBP Form 7501, Entry Summary, the company listed as the Ultimate Consignee shown in Block 25 of the CF 7501 must report on the EIA-804.

PURPOSE

The Energy Information Administration (EIA) Form EIA-804, *Weekly Imports Report*, is used to collect data on petroleum imports. A summary of the data appear on EIA's website at www.eia.gov and in the EIA publication, *Weekly Petroleum Status Report*.

In these cases, it may be possible for a knowledgeable person to estimate the information reported by a specific respondent.

Company specific data are also provided to other DOE offices for the purpose of examining specific petroleum operations in the context of emergency response planning and actual emergencies.

SPECIFIC INSTRUCTIONS

[Definitions](#) of petroleum products and other terms are available on our website. Please refer to these definitions before completing the survey form.

Quantities: Report using the following criteria:

- **Report** quantities to the nearest whole number in thousand barrels (42 U.S. gallons/barrel). Quantities ending in 499 or less are rounded down, and quantities ending in 500 or more are rounded up (e.g., 106,499 barrels are reported as 106 and 106,500 barrels are reported as 107).

Comments

Report any unusual aspects of your operations during the current reporting period in the Comments section at the bottom of the form below Parts 1 and 2 on the cover page. Comments will be used in the validation process and should address any data anomalies that could raise questions requiring contact by survey staff for clarification. Comments will be protected in the same manner as other information reported on this form as described in detail in “Disclosure of Information” in these instructions.

PART 3. IMPORTS ACTIVITY

Report only the imports of crude oil and petroleum products that entered the U.S. through Customs during the report week.

Exclude quantities of foreign origin in transit until after they enter the U.S. through Customs.

Report imports that enter bonded storage only when they are withdrawn from storage with duty paid for domestic consumption or withdrawn free of duty for use as fuel for vessels and aircraft engaged in international trade.

Exclude quantities of foreign origin in transit until after they enter the U.S. through Customs. For purposes of this report, entry through Customs is said to occur on:

- the “entry date” specified in block 7 on the U.S. Customs and Border Protection CBP Form 7501, Entry Summary (the entry date for a warehouse withdrawal is the date of withdrawal);
- or the “import date” specified in block 5 on the U.S. Customs and Border Protection CBP Form 214A (Statistical Copy), Application for Foreign Trade Zone Admission and/or Status Designation; or
- the “export date” specified in block 4 on the U.S. Department of Commerce Form 7525-V, Shipper’s Export Declaration, for shipments from Puerto Rico to the 50 States and the District of Columbia.

Report imports of Crude Oil and Crude Oil for Delivery to U.S. Strategic Petroleum Reserve as imports of crude oil (Code 020) and as imports of crude oil for delivery to the U.S. Strategic Petroleum Reserve (Code 024).

Refer to Table 2, “Commodity Names and Product Codes,” of these instructions for information on product classifications. In some cases, products classified according to their intended end use. For example, naphtha must be reported as gasoline blending components, special naphtha, petrochemical feedstocks, or unfinished oils. Exclude any products, such as finished petrochemicals, not listed on Table 2 from Form EIA-804.

Report all imports of fuel ethanol (Code 141) intended for blending into gasoline. Include both denatured and undenatured fuel ethanol intended for blending into gasoline.

Exclude imports to U.S. Territories when reporting on Form EIA-804.

Use **Table 1** to determine the PAD District classification of each State (see next page).

Report crude oil imports by country of origin for countries shown on the survey form. If the countries of origin for imports are not specifically displayed on this survey form, report the imports in Other (Code 777). The sum of the quantities reported for individual countries plus Other (Code 777) must equal the total U.S. imports reported for Crude Oil (Code 020) in the Total U.S. column in Part 3.
