**SPECIFIC INSTRUCTIONS**

**PART 3. TANKER AND BARGE MOVEMENT**

**Report** all shipments of crude oil or petroleum products for which your company has custody at the time of shipment.

Shipments that move through the Panama Canal from one PAD District to another PAD District are reported as regular waterborne movements between the original shipping PAD District and the final destination PAD District. To avoid double-counting in cases where there is a change in custody at the Panama Canal, the company that shipped the crude oil or petroleum products from a PAD District to the Panama Canal reports the entire movement. In the event the complete movement takes place in two different months, the entire movement is reported in the month when the crude oil or petroleum products were shipped to the Panama Canal.

**Report** movements of crude oil and/or petroleum products only between shipping PAD Districts and receiving PAD Districts. Use Table 1 to determine the PAD District classification of each State.
