

## 2020 F4 Subcommittee report

### Subcommittee members 2020

Pål Lindén Anthonisen NOR chair  
Stan Alexander USA  
Christopher Allen GBR  
David Law AUS  
Gwyn Avenell NZL  
Marco Inga ITA  
Didier Pabois FRA  
Børje Sebring SWE  
Bert Van Eijk NED  
David Kopal CZE  
Agustin Sevilla ESP  
Kryztopf Kroll POL  
Max Schildt SUI  
Johan Ehlers RSA  
Suzuki Takashi JPN

The pandemic has made 2020 a different year for all international activities in F4. Subcommittee rushed early to postpone the WC 2020 in Norway until 2021. This autumn, our recommendation to postpone 2021 to 2022 again went through the Plenary meeting. Because several nations needed relatively long planning time, and cross-border transportation currently is closed, the subcommittee decided to be on the safe side and postpone the WC for one more year. All Teams seems to approve on this matter and we all are looking forward to again compete in a WC in 2022. That also will keep the F4 on even years without any changes.

During the year, subcommittee also set up a working group that works to improve our sporting code. This also applies to the provisional classes, which needs updating to be interesting and follow developments in the sport. Another working group is also started the work on how to integrate all new building technology into our static rules. Zoom has been used on several occasions, both in the subcommittee's work and as a tool to promote and inspire pilots to start with F4 Scale.

we will continue with this also in 2021, as we see good results both internally in the subcommittee and with our promotion meetings in cooperation with the BMFA scale.

Pål Lindén Anthonisen  
F4 Chairman
