**Email:** [newday@alliancecom.net](mailto:newday@alliancecom.net)

**Phone:** 605-582-7418

**Hours:** 8:30am - 6:30pm (CT), Monday - Friday

**Services Offered:** Client-centered, cognitive behavioral and energy based counseling for children, teens, adults, and families. For children, play therapy addresses many issues including physical and sexual abuse, grief and loss, anxiety, depression, recovery from traumatic events, divorce, and foster or adoptive situations.

Individual and family counseling for children and teens addresses behavior disorders, family and relationship issues, parenting concerns, substance abuse, eating disorders, self-harming behaviors, chronic mental illness, anxiety, depression, and self-esteem. Sessions often focus on exploring and shifting core beliefs through resolving past issues.

For adults, sessions blend Cognitive Behavioral and Client Centered Therapies with Energy Psychology techniques to understand how their issues may be influenced by past trauma. By identifying dysfunctional core beliefs and resolving the events/emotions that helped create those false beliefs, clients can move forward with more joy, less stress and confidence in their own power to heal.

Sessions utilize energy balancing and clearing techniques (Emotional Freedom Technique, Emotional Code/Body Code and Matrix Reimprinting) as appropriate to release blocked emotions and energy for clients of all ages. Flexible scheduling allows for sessions to be held in the office or other community settings when possible, and telehealth sessions are available.

**Services Offered:** MAT (Medication Assisted Treatment) is offered to people who have moderate to severe opioid dependence. Because there is a complex relationship between health, mental health, and addiction, this treatment provides an integrated approach that focuses on the whole person. There are three ways to schedule an appointment with LCBHS:

- Call to schedule an appointment
- Referral from your healthcare provider
- Referral following a treatment needs assessment from an accredited Substance Use Treatment Provider

Individuals can often be seen on the same day that you call or are referred. Everyone will receive an assessment to determine whether or not MAT is appropriate/to help determine the most appropriate level of care. If MAT is determined to be an option, staff provide education about the different forms of MAT.

Two forms of MAT are offered at LCBHS:

- Treatment with Buprenorphine
- Treatment with short- or long-acting Naltrexone

A plan is developed with the patient's provider for the specific form of MAT treatment, level of care, and length of service based on your individual needs. Initial drug screening is required as are laboratory studies depending on history and type of MAT. Ongoing random drug testing is an integral part of treatment. Medically monitored withdrawal management is provided in a residential setting and is available if needed. There is not a set length of time for MAT. While many people may need to stay on medication indefinitely, others may choose to taper off or discontinue using MAT medications.

**Phone:** 844-383-7424

**Hours:** 24 hours a day / 7 days a week

**Services Offered:** Everi's Personal Self Transaction Exclusion Program (STeP) is a way for patrons to block access to cash across the company's national network of ATMs, cash access kiosks, and booth services. The program works in conjunction with a casino's own exclusion program.

The STeP exclusion is effective on credit cards, ATM debit cards, and checking accounts at both machine terminals and cashier cages. Patrons who believe they have a problem can download a Request to Block Transactions form and indicate what cards and accounts they wish to block. Once Everi processes the form, the identified account is blocked at participating Everi access points for at least one year. The account block remains in place until a customer unblocks his or her account(s) by filling out and submitting the Request to Unblock Transactions form.

After downloading the appropriate form, please mail, fax, or email the completed form.

**Services Offered:** ASIST is an Applied Suicide Intervention Skills Training designed to provide a practical face-to-face intervention model for caregivers to use when encountering a person at-risk of suicide. CEUs and undergraduate and graduate credit are available for this training.

Means Restriction Training - Restriction Education is designed to help parents and adult caregivers of at-risk youth recognize the importance of taking immediate, new action to restrict access to firearms, alcohol, and prescription and over-the-counter drugs in the home. Targeted audience would be staff from the Emergency Department and behavioral health staff.

Mental Health First Aid is the initial help given to a person showing symptoms of mental illness or in a mental health crisis until appropriate professional, peer or family support can be engaged. This course prepares participants to provide Mental Health First Aid to those in need. Specialized version for law enforcement available.

QPR (Question, Persuade and Refer) are three steps anyone can learn to help prevent suicide. QPR is an emergency response to someone in crisis and can save lives. Participants learn about the nature of suicidal communications, what forms these communications take and how they may be used as a stimulus for a QPR intervention.

Question, Persuade, Refer, Treat (QPRT) is an workshop designed for all first responders, primary healthcare professionals, counselors, social workers, psychiatrists, psychologists, substance abuse treatment providers, and clinical pastoral counselors who evaluate and treat persons at risk of suicide.

Safety Planning - Learn how to help someone at risk develop a set of concrete strategies to decrease the risk of suicidal behavior. The safety plan includes coping strategies that may be used and individuals or agencies that may be contacted during a crisis. Target audience would be any behavioral health or health staff.

Shield of Care - Shield of Care is an 8-hour, evidence-informed curriculum that teaches juvenile justice staff strategies to prevent suicide in their correctional facility environment. There is also a refresher course for those who have taken the training in the past.

Suicide Prevention for Primary Care - A presentation for primary care practitioners and staff on how to recognize the warning signs and risk factors of suicide and how to intervene. Also includes information about developing an Office Plan of Action that can assist your providers and staff to be prepared to assist individuals who may be in a suicide crisis.

Youth Mental Health First Aid is a course emphasizing the importance of early intervention and reviewing the unique risk factors and warning signs of mental health problems in adolescents ages 12-18. It is intended for anyone 16 years or older.

Critical Incidence Training for Police Agencies - CIT is a training provided to law enforcement personnel on appropriate emergency response to someone in crisis that can help save lives. Additionally, participants learn directly from a suicide attempt survivor about what responses may and may not be perceived as helpful, and hear from a suicide loss survivor about the collateral impact of suicide.

Customized presentations on suicide information, crisis and prevention are available upon request.
