MyEye Bullet Lite

High-resolution wireless IP camera for universal use.

WORKS WITH NICE GATEWAYS:

(Yubii Home Pro)

(Yubii Home)

WORKS WITH FIBARO GATEWAYS:

Home Center 3

Home Center 3 Lite

ALSO WORKS WITHOUT A GATEWAY:

(Stand Alone)

MyEye Bullet Lite is a universal wireless IP camera designed to meet the typical day-to-day needs of your home.

With MyEye Bullet Lite you can:

- Observe the monitored area live in 4 MP high resolution even at night, thanks to the IR diodes with a range of up to 30 m.
- Store your data with the MyEye Recorder series recorders or an SD card.
- Communicate with people near the installation site (built-in loudspeaker and microphone).
- Thanks to the built-in WiFi, you can install the camera in a location without cables: all you need is the power supply unit (included with the camera).

Seamless integration with the Yubii ecosystem.

The MyEye Bullet Lite camera can not only operate autonomously, it can also be connected to the Yubii ecosystem.

After adding the device to the Yubii app surveillance panel, the user can use the motion sensor and anti-sabotage sensor (sudden image change) to trigger scenarios and/or alarms.

This device gives your Yubii ecosystem genuine "eyes" and becomes a natural expansion element of the system.

MyEye Bullet is a latest generation IP camera designed for active monitoring of areas requiring special attention with the best possible quality.

With MyEye Bullet you can:

- Observe the monitored area live in 5 MP high resolution colour both day and night.
- Store your data with the MyEye Recorder series recorders or an SD card.
- Keep potential intruders away with light and sound alarms.
- Minimise the number of false alarms (SMD - Smart Motion Detection).
- Communicate with people near the installation site (built-in loudspeaker and microphone).

Seamless integration with the Yubii ecosystem.

As well as being able to operate autonomously, the MyEye Bullet camera can also be connected to the Yubii ecosystem.

After adding the device to the Yubii app surveillance panel, the user can use the motion sensor (Standard or AI) to trigger scenarios and/or alarms.

The light and sound alarm incorporated in the device can be activated from the Yubii ecosystem.

ST4000VX016	Seagate Skyhawk 4TB
ST8000VX010	Seagate Skyhawk 8TB

MyEye Video Recorder Lite is a compact professional recorder specifically designed to manage and store recordings from My-Eye series IP cameras.

With MyEye Video Recorder Lite you can:

• Watch live camera footage on your TV, monitor or display device with HDMI or VGA input.

• Manage the cameras connected to the recorder en bloc and store camera recordings, thanks to the optional hard disk with a capacity of up to 16 TB.

• Power your MyEye series cameras thanks to the 4 PoE ports.

Seamless integration with the Yubii ecosystem.

MyEye Video Recorder Lite is not only an integral part of the monitoring system, it can also become part of the Yubii ecosystem.

After adding the device to the surveillance panel of the Yubii app, the user can automatically import all previously imported cameras into the recorder, without having to import each one individually.

This integration significantly reduces the time needed to install the system and makes it much easier to manage.
