HIGHER EDUCATION INTEGRATION WITH CLUSTER REPLY'S QUICKCONNECT FRAMEWORK

POWERED BY MICROSOFT AZURE

LEARN HOW CLUSTER REPLY HELP TO OPTIMISE STUDENT ATTRACTION, RETENTION AND SUCCESS IN A DIGITAL WORLD

Digital transformation is no longer a case of 'if' but 'when', and Higher Education institutions recognise the need to transition to meet the demands of the 'digital' student, through offering a superior digital experience and services to attract and retain talent.

With a shift from a physical to a remote learning environment, a student's expectation is to have on-demand access to services and facilities, fully leveraging mobility with ease, wherever their location.

Cluster Reply's QuickConnect Integration Framework for Higher Education enables you to optimise your current integration investments and implement a hybrid or cloud approach. QuickConnect facilitates flexibility and adaptability to offer a continued level of service, minimising educational impact when students and staff access resources.

DISCOVERY WORKSHOP AGENDA:

Roll over circles for next slide

Before defining and agreeing your integration strategy, it is important to consider a range of factors to develop a robust architecture design and project plan.

The objective is to capture the relevant information and offer guidance on how best to approach integration, whether you maintain on premises, consider hybrid or are looking to migrate to a cloud integration approach.

WHY CLUSTER REPLY?

AWARD WINNING MICROSOFT AZURE EXPERTS

Cluster Reply specialises in delivering cloud solutions using the Microsoft Azure integration platform. Cluster Reply is a global award winning Microsoft Gold certified partner with over 20 years' experience delivering application development, integration and cloud infrastructure solutions using Microsoft technology.

Delivering a complete cloud Managed Services solution; on-premises, hybrid and full cloud, enabling you to digitally transform your business with Microsoft Azure.
