Subject: Updated: Soliciting Comments on the Experimental Standardized  
Weather Forecast Office (WFO) Avalanche Weather Webpage at 17 WFOs through  
April 30, 2024

Updated to extend comment period through April 30, 2024.

The NWS is soliciting comments on the experimental standardized WFO  
Avalanche Weather Webpage through April 30, 2024 at 17 WFOs. These WFOs  
are Gray, ME; Burlington, VT; Albuquerque, NM; Riverton, WY; Boulder, CO;  
Pocatello, ID; Salt Lake City, UT; Pendleton, OR; Boise, ID; Great Falls,  
ID; Las Vegas, NV; Spokane, WA; Reno, NV; Missoula, MT; Anchorage, AK;  
Fairbanks, AK and Juneau, AK. The Boulder, CO office will produce the  
webpage for all of Colorado.

A standardized version of an avalanche weather webpage ensures each local  
WFO webpage is consistent with one another, thereby increasing the  
visibility and accessibility of NWS avalanche weather information.

The webpages will be available at the following links:
