From:        Ben Kyger  
              Director, NCEP Central Operations

Subject: Notification of Removal of AddThis from forecast.weather.gov and  
marine.weather.gov: Effective May 30, 2023

Effective on or about May 30, 2023 the National Centers for Environmental Prediction (NCEP) will remove AddThis sharing service from our forecast pages. In the case of a declaration of Critical Weather Day or an Enhanced Weather Event, the implementation will be delayed until the next working day without weather restrictions.

This removal is being driven by the decision made by Oracle to terminate all AddThis services effective May 31, 2023.

The URLs that will be affected are: <https://forecast.weather.gov/> and <https://marine.weather.gov/>.
