Workspace Skills

A series of interactive tutorials that help students and teachers make the most from Google Workspace for Education

Bite-Sized Learning

Users earn bronze, silver, and gold digital badges for each Google Workspace for Education Tool. The badges are automatically recorded in the users' Digital Skills Passport.

Deployed via Google Classroom

Educators can choose the pace and pathway for their students, deploying the tutorials easily via Google Classroom and tracking their progress in the class Gradebook.

Interactive Tutorials

Each tutorial is unique with intuitive scaffolding to support the learners as they are guided through real-world examples of tool usage. Users obtain competence and efficiency scores and can see the most efficient route.

"This has been one of the most popular and successful tech training programmes I have ever run and the unique way that it trains staff and pupils has made it stand out."

- Ivan Langton, Lead Teacher of Digital Learning, St George's British International School, Rome
